

# MONTREAL FIREMEN CONQUER STUBBORN BLAZE

## Charge Withdrawn Against McLean In \$10,000 Theft Case

Restitution of \$7,500 Made in Alleged Swindle and Prosecution of Arthur McLean Is Dropped; Magistrate Exercises Discretion Following Recommendation From Attorney-General.

The charge against Arthur McLean of stealing \$10,000 from H. W. Simpson, San Francisco, was withdrawn in the City Police Court this afternoon at 2:15 o'clock.

Oscar Bass, K.C., deputy attorney-general, stated to the court that this action was agreeable to the Attorney-General, who had investigated the case. It was done out of benevolence to Simpson rather than as leniency to the accused.

W. C. Moresby, K.C., counsel for Simpson, said restitution had been made to the amount of \$7,500. While expressing hesitation in complying with the request Magistrate George Jay said that under the circumstances he could exercise his discretion and would allow the charge to be withdrawn.

Move to secure the release of Arthur McLean, charged here with a \$10,000 theft through an alleged swindle, was a development when the case came up for hearing before Magistrate George Jay in City Police Court this morning.

It was stated negotiations were under way by which H. W. Simpson, informant in the case, would receive restitution of part of the amount he had lost, and the accused would leave town immediately.

The court was informed that Attorney-General R. H. Pooley would allow the charge to be withdrawn under such circumstances if the magistrate approved of the course.

**DOES NOT APPROVE**

Magistrate Jay stated he did not approve of the procedure and the case was remanded until 2 o'clock this afternoon for further argument on the point.

When McLean appeared this morning, he pleaded "high" and was taken through his counsel, Stuart Henderson, Mr. Henderson asked for an adjournment for ten minutes.

City Prosecutor C. L. Harrison then told the court he understood an application was to be made for withdrawal of the charge.

"I am informed by the Deputy Attorney-General that the Attorney-General is agreeable to a withdrawal if restitution is made, and on certain other conditions, providing your honor approves," he said.

R. C. Love, appearing for Mr. Simpson, declared the informant was desirous of withdrawing the charge. Restitution would be made as far as possible, he said.

**AN EXCHANGE?**

Magistrate Jay said:

"In other words, in consideration for a certain sum of money received by Mr. Simpson, he is willing to withdraw the case?"

Mr. Harrison: As I understand it, the sum of \$7,500 will be returned and the accused will leave the city immediately he is released.

Magistrate Jay: I do not approve of it.

Mr. Henderson said the move for withdrawal was news to him. He had been retained on the criminal charge. The court adjourned.

## Canada's Wheat Crop Put At 384,769,000 Bushels

**YACHT CUP RACES**

New York, Sept. 10.—The America's Cup races, beginning next Saturday afternoon, will start at 12:30 p.m. E. S. T. (9:30 a.m. Victoria time), with a limit of five hours and thirty minutes.

Canadian Press  
Ottawa, Sept. 10.—Canada's 1930 wheat crop is estimated at 384,769,000 bushels, of which 362,000,000 bushels are expected to be garnered in the three prairie provinces. This is the forecast made public to-day by the Dominion Bureau of Statistics, based on reports filed on or about August 31.

Of the above total for all Canada, 364,481,000 bushels are spring wheat. Last year's spring wheat crop totaled 384,016,000 bushels and the entire wheat crop was 304,520,000 bushels.

"The western wheat crop," the report states, "is very spotty and thus difficult to estimate because of a series of desolating weather effects from seeding until harvest."

Winnipeg, Sept. 10.—The prairie wheat crop for 1930 is forecast at 335,812,000 bushels in the twenty-seventh annual cereal yield estimate of The Manitoba Free Press, published to-day. It is mentioned that while the estimate is considerably larger than the out-turn of the crop of last year, it is only a little more than sixty per cent of the record crop of 1928. Total prairie wheat acreage is placed at 23,900,000.

## PREPARE FOR AMERICA'S CUP RACE SATURDAY

When Enterprise, the United States defender, sails against Shamrock V next Saturday in the first race of the series for the America's Cup, Harold S. Vanderbilt, right, head of the syndicate which built the yacht, will be aboard as skipper. W. Starling Burgess, left, designed Enterprise.

## All Liberal Members of Parliament Declare Their Confidence In Mr. King

Full Endorsement of His Leadership of Party Voted by Commons Members and Senators

Canadian Press  
Ottawa, Sept. 10.—Confidence in their leader, Mr. H. W. Mackenzie King, was expressed to-day by the Liberal members of the House of Commons and the Senate at a joint caucus. Complete endorsement was given his leadership and his campaign in the last election.

The caucus passed the following resolution:

"The Liberal members of the Senate and the House of Commons desire to express to Mr. H. W. Mackenzie King, their great admiration for the magnificent battle he has fought for the cause of Liberalism in very difficult circumstances, and their utmost confidence in his leadership."

**CAUSE OF ALARM**

"They view with alarm the attempt of the Tory Government to capitalize the present world-wide economic depression for the purpose of applying doctrines and policies calculated to serve special interests, but are firmly convinced the people of Canada will soon realize such policies will only hamper the progress and the advancement of our fine country, and that Liberal ideals and Liberal principles will be vindicated and will ultimately dominate the policies of Canada."

Mr. Charles Maclellan, a former Speaker of the House of Commons, presided at the caucus.

The veteran airship, which on its round-the-world flight last summer carried the first Soviet Republic from east to west, appeared over Moscow earlier than expected to-day. Its progress had been speeded by a tail wind during the twenty-seven hour flight from Friedrichshafen, Germany.

100,000 IN CROWD

After circling low over the city and twice dipping over the ancient Kremlin in tribute to the chiefs of the red republic, the Graf came down on October Field. About 100,000 holders of special tickets had been waiting for the ship, there since early morning.

## EARNINGS OF C.P.R. SYSTEM SHOW RISE

Canadian Press  
Montreal, Sept. 10.—Marking the first increase since the second week of September, 1929, Canadian Pacific Railway earnings for the week ended September 7, 1930, were \$10,000 higher than for the corresponding period of 1929.

Owing to stagnation in the grain market and other conditions of depression throughout Canada, railway earnings have consistently shown decreases since August, 1929, with the sole exception of the week ended September 14, 1929, when an increase of \$107,000 over the same period in 1929 was recorded.

The C.P.R. earnings for the week ended September 7, 1930, were \$3,951,000, as compared with \$3,941,000 for the same period in 1929.

Helpful as former donations have been the sum collected is yet far below the amount needed to give the unfortunate a fair chance to continue their lives without suffering severe financial stringency.

All persons who have not given to the cause are requested to send their contributions, either great or small, to those of others who have made donations.

This morning the total amount collected by The Times stood at \$715.04. This included late gifts of \$1 from "A Friend," Gordon Dods and "H. A."

## GREAT FORCES IN FIGHT IN CHINA

Shanghai, Sept. 10.—Four hundred thousand Nationalist Government troops began a great offensive to-day to drive Northern Alliance rebels out of Honan Province.

## NEW INSURANCE SCHEME FOR AUTO DRIVERS

Labor Congress of Canada Urges State Plan for Liability

Delegates, Meeting in Regina, Go to Moose Jaw for Visit

Canadian Press  
Regina, Sept. 10.—The Trades and Labor Congress of Canada in annual convention here, got down to business early to-day and adjourned at noon in order that the delegates might drive to Moose Jaw, to be entertained by the Trades and Labor Council of that city.

A resolution taken up this forenoon asked the Congress to go on record as favoring an eight-hour day for drivers of trucks and buses. This was first introduced at yesterday's session, but was turned back for revision. The resolution, introduced by the Ontario Provincial Council of Carpenters, was changed to include other provinces and the drivers of taxicabs.

**EIGHT-HOUR DAY**

The Congress will ask the Ontario Government to insert a fair wage clause providing for an eight-hour day and forty-four-hour week on all work on which provincial funds are expended as the result of another resolution which was adopted. Another measure to the effect of employment between the Federal and Provincial Governments was also adopted.

Where difference exists between the regulations governing wages and conditions of employment between the Federal and Provincial Departments of Labor, a third resolution passed asks for more uniform regulations.

**AUTO DRIVERS' INSURANCE**

A hitch in the proceedings came on a resolution for "state insurance" for automobile drivers. This, too, had been referred back for revision. The measure asked legislation be enacted requiring drivers to carry property and accident damage policies, under a system of state insurance. Some delegates felt state insurance was a thing of the future and not immediately obtainable.

The resolution finally was adopted. Firemen will get three weeks' vacation, another passed resolution bears fruit.

**LETTER CARRIERS' PAY**

The long drawn out battle for increased salaries for letter carriers again came to the front when a resolution asked the Congress to urge the Government to place the Postmaster General in a position to fix the salaries. The Civil Service Commission at present arranges the wage schedules. The Congress agreed.

## GRAF ZEPPELIN IS GREETED BY MOSCOW CROWD

100,000 Persons at Field When Dirigible Reaches There From Germany

Moscow, Sept. 10.—The German dirigible Graf Zeppelin to-day paid its first official visit to the Soviet Republic. She arrived at noon and was greeted with red flags flying and bands playing proletarian airs. After a brief visit to the Friedrichshafen, Germany, airport.

The veteran airship, which on its round-the-world flight last summer carried the first Soviet Republic from east to west, appeared over Moscow earlier than expected to-day. Its progress had been speeded by a tail wind during the twenty-seven hour flight from Friedrichshafen, Germany.

## SEATTLE WET IS CANDIDATE FOR CONGRESS

Republican Primary Election Gives Ralph A. Horr the Nomination

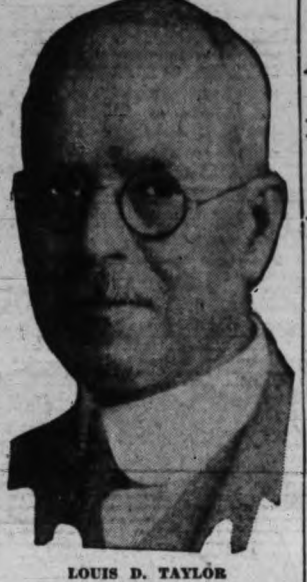

Seattle, Sept. 10.—Widening the lead he captured with late returns, Albert Johnson, chairman of the House Immigration Committee, and nine times elected to Congress, appeared certain of his tenth Republican nomination in the third district to-day over John P. McCutcheon. With 577 of 633 precincts in the primary election tabulated, he had 32,080 to McCutcheon's 27,779, a plurality of 4,301.

Fayon Peterson, former state legislator of Snohomish, moved closer to Representative Lindly H. Hadley in the second district race, which promised to be nip and tuck to the finish. He cut the lead of Hadley, running for his ninth term in Congress, to 1,047, with 397 precincts out of 581 tabulated. The Bellingham Congressman had 12,947 to 11,898 for Peterson.

**WET LEADS**

In the first district, Ralph A. Horr of Seattle, Republican wet champion, increased his margin of victory over representative John P. Miller, dry, who never before lost a campaign, having been elected seven times to Congress, twice Seattle mayor and twice prosecuting attorney during his long political career. Seattle and Kitsap County (Concluded on Page 17)

## CANDIDATE FOR POST OF MAYOR OF VANCOUVER

Vancouver, Sept. 10.—Louis D. Taylor, former Mayor of Vancouver, to-day announced his candidacy for the post of Mayor in the election December 10.

Mayor W. H. Malkin has not yet stated his intentions.

Interviewed to-day, the Mayor stated he had not yet given the matter consideration.

"The election," he said, "is still three months away. There is plenty of time."

## NEW UNITY IN THE EMPIRE IS SEEN GROWING

J. H. Woods of Calgary Tells Vancouver Audience of His Visit

Says All Parts of Empire Determined Strength Will Increase

Canadian Press  
Vancouver, Sept. 10.—Great Britain is thinking of trade preferences as she never thought before, in the opinion of J. H. Woods of Calgary, as expressed in an address before the Vancouver Board of Trade to-day. Mr. Woods is president of the Canadian Chamber of Commerce and managing director of the Calgary Herald.

The speaker related his impressions of the meetings this year in London of the Chambers of Commerce and the Imperial Press Conference.

"We met our brothers from all the seven seas," Mr. Woods said, "all devoted with a single heart to one common cause, the preservation and maintenance of our Empire, the building up of closer relations and deeper affection among its members and the safeguarding of it against attack from without."

**UNITY SEEN**

"Never in my life," he continued, "have I seen such forceful unity of mind and heart as in England in the last few months. Business men from Canada, Australia, South Africa, New Zealand, and from the scattered portions of the Empire, met in London."

## Household Goods Carried To Streets As Warehouse Burns

Firemen Battle Outbreak in North End of Montreal for Two Hours Before It Is Under Control; Loss Put at \$250,000; Three Firemen Injured.

## MONEY VOTE IS BEFORE THE COMMONS

Bennett Speaks on His \$20,000,000 Plan to Reduce Unemployment

Canadian Press  
Ottawa, Sept. 10.—The galleries were again crowded to-day when the afternoon sitting of the House of Commons opened. After routine business had been dealt with the Prime Minister moved the House into committee of the whole to consider the resolution which provides \$20,000,000 to alleviate unemployment.

In so doing he said he wished to embrace the occasion to pay a tribute to Armand Lavergne, Conservative, Montmagny, Que., who embarked for the first time on his duties as Deputy Speaker and chairman of the committee of the whole.

Mr. Lavergne replied, assuring the House he would endeavor to conduct the business of the committee impartially.

**MANY CAUSES**

The government, said the Prime Minister, talking to the resolution, was dealing with a condition and not a theory. He was not concerned with the great causes of unemployment, for these were many. On the government side of the House members believed the policies of a government which administered a country with practically untouched natural resources, in such a manner as the preceding administration, were responsible. The Liberal Party did not quarrel with the opposition on this score, nor would he discuss either the validity of their attitude nor the invalidity of his own.

**OTTAWA CONFERENCE**

As soon as his government had taken office, the Prime Minister went on, it had set in motion machinery to enable it to secure information relative to unemployment conditions in the country.

The next step was to summon the Employment Service Council of Canada into conference. Mr. Bennett detailed the composition of that body. For two days the council had discussed unemployment and made recommendations which were unanimous.

Premier Bennett proceeded to read the twelve recommendations submitted after the unemployment conference held in Ottawa recently.

These recommendations, he declared, represented the view of a non-political body established by order-in-council passed in 1920.

**REQUEST ACKNOWLEDGED**

He had, yesterday evening, the Prime Minister said, received a communication from the Trades and Labor Congress of Canada, in convention in Regina, urging the recommendations of the Employment Service Council be put into effect, advocating the limitation of the hours of labor to eight hours per day and five days a week and enforcement of the regulations prohibiting the entry of immigrant labor.

## John A. McDonald Of Vancouver Dies

Vancouver, Sept. 10.—A resident of Vancouver forty-three years, John Alexander McDonald, aged seventy-four, died Tuesday at his home following a brief illness.

Born in Glenora, Ont., Mr. McDonald came to Vancouver in 1887.

## WEATHER AND MISHAPS MAKE BREAK IN PRAIRIE AIR MAILS

Canadian Press  
Regina, Sept. 10.—A few hours' rain that drenched the prairies yesterday evening and a few other happenings upset the whole prairie airmail service for a time this morning. Fog, one of the greatest hazards to the airmen, forced all the planes of the Western Canada Airways Service to remain grounded from Winnipeg to Calgary. They were expected to swing back into operation later in the day, however. It was the first break in several months of 100 per cent. efficient service.

A plugged gasoline feed line forced Ion Farrell to land his Edmonton-Regina plane in a wheat field south of Marquis yesterday evening. He carried seven passengers. A hurried drive to Moose Jaw resulted in a mechanic ending in the plane arriving safely in a heavy rain at Regina about 9 o'clock. Rainfall which lasted a little more than thirty minutes was Regina's share of a cyclonic windstorm and clouds burst which raked the Qu'Appelle Valley and north early yesterday evening.

**GARAGES BLOWN ABOUT**

At Disley garages and sheds were scattered about by the violence of the wind and hundreds of windows panes were smashed, including a large store plateglass window valued at \$500. The electric light and power plant at Lumsden was put out of commission and residents were obliged to resort to oil lamps. In the rural districts telephone poles were uprooted.

The tail end of the storm, reached Regina about 7 p.m. and for a little more than half an hour a rainfall of 1.3 of an inch was recorded.

## DUNNING MAY SOON RETURN TO COMMONS

King's Words Interpreted to Mean Ex-minister May Seek Re-election

Canadian Press  
Ottawa, Sept. 10.—The return to public life of Hon. C. A. Dunning, former Minister of Finance, who failed of re-election in Regina, is still regarded as very much of a possibility. It is suggested Rt. Hon. W. L. Mackenzie King, Liberal leader, had Mr. Dunning in mind when he made a reference to familiar figures who were absent from the commons during his speech on the attitude yesterday afternoon.

"I have one real personal regret in the fact—and here again I would not confine my remarks to one side," said Mr. King, "that absent from the present Parliament are a number of those who, during the last Parliament, took a very prominent part in the debates and other proceedings of the House. We who were here shall miss many of the familiar figures. Some I trust will return in the not too distant future."

Mr. Dunning was one of the most prominent debaters in the Liberal ranks during the last Parliament.

## FOREST FIRE NEAR VANCOUVER IS CONTROLLED

Vancouver, Sept. 10.—From one acre, the lightning fire on the old Naimith logging operations at Hollyburn has spread over fifty acres. The blaze was started by lightning Monday evening.

Sixty men, under the supervision of provincial forestry officers, have surrounded the outbreak with a trench. The fire to-day was reported to be under control, and no further trouble was anticipated.

## Empire Conference Not To Be Smoke Screen for Bennett, Declares King

Liberal Leader, Addressing Commons, Tells Premier People Want No Steam Roller Methods at Present Session of Parliament

Ottawa, Sept. 10.—That the people of Canada would not be satisfied with the employment by the Bennett Government of any "steam roller process" to complete the work of the present special session of Parliament speedily was a warning given yesterday afternoon by Mr. Hon. W. L. Mackenzie King, Liberal leader, during a speech in the commons.

"The people of Canada are not going to permit the Prime Minister to use the Imperial Conference as a smoke screen to hide behind in order to get his tariff proposals put through irrespective of what they may be," said Mr. King.

The opposition wished to make it possible for Mr. Bennett to go to the Imperial Conference, Mr. King said, and he suggested the House might ad-

ourn for a time while the Prime Minister was away, to reassemble on his return.

**TINKERING NOT BEST PLAN**

In the later debate, Robert Gardiner, leader of the U. F. A. group, expressed the hope the Government would deal with unemployment by a better method than "tinkering with the tariff." J. S. Woodworth, Labor member for Winnipeg North Centre, stated changes in the customs tariff would not constitute a solution for unemployment and Henri Bourassa, Independent member for La-Belle, Que., and the final speaker of the debate on the address, said he was opposed to wholesale British preference.

**READY FOR PROPOSALS**

Shortly after 10 o'clock yesterday evening the motion of an address to the Governor-General in reply to the Speech from the Throne passed the House of Commons without a division. There were only five speakers, including Mr. King and Premier Bennett. Thus the decks were cleared for the business of Parliament.

**NO USE OF FORCE**

When during the discussion yesterday afternoon, Mr. King asked the customary question of the Prime Minister with respect to the business for the next day, Mr. Bennett replied he hoped to proceed with certain resolutions.

While the opposition was prepared

to expedite the business of the House, it did not intend to acquiesce in any attempt to employ "steam rolling tactics" on the part of the Premier to get legislation through, said the Liberal leader. He had therefore indicated in his reply to a note from Mr. Bennett that, being in ignorance of the nature of the resolutions, he could not give the Prime Minister assurance of unanimous consent inasmuch as a number of his colleagues and members of the Progressive group would desire to examine them and so frame their attitude and course of action.

The rules of the House provided forty-eight hours be given before any resolutions could be proceeded with. The Prime Minister knew this, he added. Yet the day's order paper was blank, and no indication had been given of what business would be proceeded with on Wednesday. He could not understand why this should be so unless it was that the resolutions contained something Mr. Bennett did not wish to have disclosed at this time.

**TWO RESOLUTIONS**

Premier Bennett said he had pursued the proper course in this case, for it was known quite well nothing was to be done until the order paper until the debate on the address in reply to the Speech from the Throne was disposed of.

The resolutions were ready, he said. The first was to amend the Customs Act in order to make provision against dumping and to effect such improvements as were necessary. The second dealt with a money appropriation of \$20,000,000 to be provided for unemployment relief. There would be ample opportunity afforded members to debate these measures, said Mr. Bennett.

Later yesterday evening Mr. Bennett gave notice of the unemployment resolution as follows:

"That it is expedient that a sum not exceeding \$20,000,000 be appropriated and paid out of the consolidated revenue fund for the relief of unemployment in constructing, extending or improving public works and undertakings, railways, highways, etc., that will assist in providing useful and suitable work for the unemployed, all as set forth in a bill founded on this resolution."

The resolution referring to the amendments to the Customs Act was given notice as follows:

"Resolved, that it is expedient to amend the Customs Act in respect to the provisions relating to the fair market value for duty on goods imported and subject to ad valorem duty, and goods imported, the process of which are published or listed by the manufacturers, producers or persons acting on their behalf, the allowance of discounts, and the valuations of imports prejudicially or injuriously affecting Canadian producers."

**BENNETT'S REFORMS**

During his speech Mr. King quoted extensively from speeches delivered by Mr. Bennett during the recent election campaign. He dealt at length with pledges and promises made by Mr. Bennett in order to obtain power. Dividing these into two groups, he referred to the first group as Mr. Bennett's "Magna Charta of promises" and his "corruptopia of pledges." Canada, he warned the Prime Minister, would expect these pledges to be carried out.

Then Mr. King outlined what he called "the supplementary list" of pledges Mr. Bennett had made to various localities as he moved about the country in his campaign.

**WORLD CONDITIONS**

In the course of his speech in the afternoon, Mr. King said the Prime Minister had known very well that unemployment in Canada was due to world conditions over which no government had any control. He had known it was due in a large measure to the failure of the wheat crop in western Canada, and more particularly to the failure of Canadian grain to move to market in the usual way.

"Yet never once," he went on, "did he come out honestly and straightforwardly and tell these facts to the Canadian people. Now that he is in power, in the words he puts in the Speech from the Throne he says unemployment is exceptional and due to some exceptional circumstances. To use his own words, he 'betrays' all that he said in the campaign."

**STATEMENT UNFOUNDED**

In the eight years of the King administration, Mr. Bennett had said at Stratford, Ont., more than 1,000,000 people had left Canada for the United States. He had said they were leaving at the rate of 5,000 each month, with only \$78 returning monthly. That statement, declared Mr. King, "had not a word of truth in it."

There were cries of "order" and the Prime Minister rose to claim the opposition leader was "out of order." No honorable gentleman might say in the House of Commons that a statement made by another honorable gentleman had not a word of truth in it, he said.

Mr. King said such a rule applied to statements made in the house, but not to those made elsewhere. It would be impossible to carry on debate in the house, said Mr. King, if members were debarred from asserting the inaccuracy of statements made outside the House of Commons.

The incident passed over.

**PEACE RIVER RAILWAY**

Mr. Bennett also had undertaken to provide a railway outlet from the Peace River country to the Pacific coast. Had he yet done anything about it? asked the Opposition leader.

**MINISTER OF LABOR**

Mr. King said it was rather singular, in view of the fact that parliament had been summoned to deal with labor conditions, that the only minister absent from the assembly was the Minister of Labor. Whether this was by design or not it was difficult to say. If from his large following the Prime Minister had not found it possible to find a Minister of Labor, but had to select one among the members of the Senate, then it did not say much for the democratic pretensions of the government.

Mr. Bennett must know, continued the Liberal leader, that the country would expect at this session of parliament that the Minister of Labor should be a member of the House of Commons and should be able to take responsibility for the policies that were to be brought down.

Already, during the afternoon, Mr. King continued, he had asked the Prime Minister questions dealing with labor meetings, and the answer had been that the Prime Minister regretted he was not in possession of the information. That was not treating parliament fairly, was it? dealing fairly with the country. Furthermore, the gentleman which the Prime Minister had selected as Minister of Labor had never been elected by popular vote to any legislative assembly, and could not, in view of his present position, be expected to appear before the electorate and answer for the labor policies he sponsored, in the manner of other members of the House of Commons.

**FINANCE PORTFOLIO**

The present session would also see large expenditures, yet another

## Dizzy, Weak Heart Terrible Headaches All Gone. New Life

"FRUITATIVES" Stop Years-old Tortures Quick

"Was bothered with dizzy, weak heart, terrible headaches. After taking 'Fruitatives' an entirely new person. — Mrs. F. Valcourt, St. Gabriel, East, P.Q.

Thousands tell miracles of "Fruitatives." Constipation, liver trouble, dizziness, weakness, headaches and over-night, bad stomach, biliousness, indigestion, heartburn, gas vanish promptly. Kidney and bladder ills, pain in back go in 24 hours. Nerves and heart quiet, sound sleep at once. Rheumatism, neuralgia decamp quick. Completion clear.

Ten of nature's greatest remedies combined in handy little tablet. Mysterious discovery of famous Canadian doctor. Speedy results assured. Get "Fruitatives" from druggist to-day. Become new person overnight. (Advt.)

Notable omission from the treasury benches was that of a Minister of Finance, continued Mr. King. The need was great at present.

When Mr. Bennett was asked by the Governor-General to form an administration he owed it to his colleagues and to the country to select someone else as Minister of Finance. At the moment Mr. Bennett was holding the offices of Prime Minister, President of the Privy Council, Secretary of State for External Affairs, Finance Minister and leader of the House of Commons, and as leader of the government he had many other duties. He would find that any attempt to monopolize the affairs of the country was something not congenial to the people of Canada, however congenial it might be to Mr. Bennett himself. The Mussolini touch was good neither for his own health nor for that of the country.

**POOH BAH**

If the matter were not so serious there would be a Gilbert and Sullivan comedy about it. The situation recalled the light opera, "The Mikado," in which Pooh Bah incorporated all the high offices of state and found his conscience torn between his opposing duties. As Prime Minister he would have liked to embark upon large expenditures, but as Chancellor of the Exchequer it was his duty to act as guardian of the public treasury. The system of cabinet government had been devised in order to give the country the benefit of many minds. It was never intended that the business of government should be carried on with the aid of only one will, but that out of a multitude there should come wisdom.

**BENNETT SPEAKS**

Premier R. B. Bennett in opening his reply, expressed the opinion the election had shown "visible and concrete evidence of the faith of the people in the policies of the Conservative Party."

There should be no difficulty, he believed, in the House giving immediate approval to the proposals the Government would lay before it. They were all based on issues which were clearly before the people during the election and on which the Government had a positive mandate.

Referring to figures from his election speeches challenged by Mr. King, the Premier said everyone knew how frequently figures were misreported in newspapers during election campaigns. A speech he made at Calgary had been inadequately reported, but he had taken the trouble to have the matter corrected to writing and distributed to the press when he spoke again.

One of the reasons why he had retained the Portfolio of Finance himself, Mr. Bennett went on, was because he felt it would be unfair to ask another man to implement them at this session.

He refused to discuss the issues of the election except as they would come up in connection with measures introduced by the Government.

**HIS PROGRAMME**

"This government proposes to go forward with the programme which it has outlined," Mr. Bennett said. "It does not purpose to do this in one session or in two sessions, because no promises of that character were made. On the other hand, the promise it gave as to what would be done at this special session of Parliament this government will endeavor to carry out."

# Do I look like an Enthusiast? I AM!

Listerine usually removes loose dandruff in 3 days

DOWN at the office the men under me say I'm a kill-joy. I seldom get enthusiastic about anything. But I want to tell you about my experience getting rid of dandruff. I have always had a good head of hair, and when I first began to be troubled by dandruff, I felt pretty worried. It's a humiliating thing at best. You feel guilty with those telltale flakes on your coat collar. Sort of ashamed to meet people. It's bad business.

Of course, the first thing I did was to go to my barber. "Nothing to it," he said. "I'll have you over that in a couple of weeks." You have probably heard that line yourself. Well, I let him wreak his vengeance on my scalp and hair with a lot of funny treatments that were a nuisance. Net result: just as much dandruff, if not more. Net loss: \$12.

Then somebody said, "See a specialist."

Well, what that fellow did to my scalp was worse than the great war itself. He thumped it. He beat it. He photographed it. He rubbed it. He anointed it. He baked it. He dried it. He fanned it. Net cost: \$25. And give him some credit—he did get rid of the dandruff—but only for a little while.

Then one morning my wife said to me, "Everett," she said, "why don't you try Listerine? A lot of the girls at the club have tried it and they say it gets rid

of ordinary loose dandruff in no time." Well, sir, I tried it. Just doused it on full strength, as they say in their ads, and massaged the scalp with the finger tips. And, by George, after the first treatment dandruff began to disappear. Right away my scalp began to feel like a million dollars. After another treatment, I couldn't find any dandruff at all, and my scalp was just as cool and healthy as a baby's. None of that old itching and burning. Net cost: 50¢. What's more, dandruff hasn't returned. Can you blame me for being enthusiastic about Listerine?

Enthusiastic comments like the above are the rule rather than the exception.

You can understand Listerine's success against dandruff when you realize that dandruff is a germ disease, and full strength Listerine kills germs in 15 seconds. Even the Staphylococcus Aureus (pus) and Bacillus Typhosus (typhoid) yield to it in counts ranging to 200,000,000.

Listerine first dislodges and dissolves the tiny scales which are the outward evidence of dandruff, then it soothes, cools, and heals the troubled scalp. The flesh tingles and glows with new health and invigoration.

If you have any evidence of this humiliating and dangerous condition, begin with Listerine at once. Remember that it is entirely safe, and douse it on the scalp full strength, then massage vigorously with the finger tips. Keep the treatment up as a part of the regular soap and water shampoo, or independent of it, until dandruff is under control. Lambert Pharmacal Co., Toronto—Canada

RESIGNATION  
OF MASSEY IS  
DATED AUG. 14Correspondence on High  
Commissionership in Lon-  
don Is Tabled

Ottawa, Sept. 10.—The resignation of Hon. Vincent Massey from the post of Canadian High Commissioner to Great Britain, which was announced by the Prime Minister in the House of Commons yesterday afternoon, had been in effect for nearly a month, according to the correspondence the Premier tabled in the House.

The letter of resignation, written by Mr. Massey to Mr. Bennett, stated the ideas of the two with respect to the High Commissionership were at variance. It also indicated the Prime Minister had made plain his desire to have at London "someone in close political association with the government of the day."

Mr. Massey's first official communication to Mr. Bennett was dated August 7. Therein the former minister to Washington declared he had waited until Mr. Bennett had assumed office before approaching him with a view to ascertaining his instructions with respect to the London high commissionership. An appointment was made at which Mr. Massey met Mr. Bennett in Ottawa, August 14.

From the conversation between the two resulted Mr. Massey's resignation. This was conveyed by letter the following day, following the resignation of Mr. Bennett.

"I appreciate your courtesy in arranging our conversation of yesterday afternoon of your wishes concerning my appointment to the High Commissionership in London."

"I left the Legation at Washington and accepted transfer to the office of High Commissioner to Great Britain, in the understanding that the office of High Commissioner was an integral part of our service abroad, differing, of course, in its procedure from our foreign diplomatic offices, but akin to these in qualifications of its personnel to the government, which it serves. I now realize our ideas regarding this are at variance. In our discussion on this subject, you were good enough to make clear your view that the office of High Commissioner should be held by someone in close political association with the government of the day, and I understood from what you said that you had in mind plans for the post as a result of which my own appointment could no longer stand. These circumstances, I, of course, at once offered you my resignation from the High Commissionership, which I now confirm—the resignation to take effect whenever you so desire."

"In resigning from this post in our service abroad, of which I have been a member for three and a half years, I should like to say that no one has been more engaged in its work, could retire from a post in it without a feeling of having been greatly privileged."

"With kind regards,  
"Yours sincerely,  
"VINCENT MASSEY."

Mr. Massey was appointed High Commissioner to Great Britain by the King Government by order-in-council dated July 23, 1930.

Vancouver  
Island News  
Chemainus

Chemainus, Sept. 9.—Owing to the holidays the Order of Daughters of Empire held their regular monthly meeting on Friday.

The regent, Mrs. Russell Robinson, presided. Others present were Mrs. P. Wyllie, Mrs. Gregson, Mrs. Jack Mather, Mrs. James Goldsmith, Mrs. J. Wynne, Mrs. A. H. Work, Mrs. Henry Knight, Mrs. Wood, Miss White and Mrs. Morgan, a visitor from Vancouver.

An appeal for bed clothing from Chase River caused discussion and it was decided to make some patchwork quilts.

It was decided to send a bale of clothing to Vancouver on September 15 for use of veterans, their wives and children. The articles to be sent to the home of the regent, where the bale will be made up. Mrs. Gregson, educational secretary, said the L.O.D.E. National Educational War Memorial quota had now been made up.

Mrs. Gregson reported she had written to Miss Cooke, provincial secretary, about the libraries to be sent to isolated schools at the north end of the island and that Miss Cooke had advised her that the transportation fees would be met by provincial chapter. Miss White reported that the donation to the First Chemainus Guides had been spent as follows: Oil-cloth tablecloth, two large stew pans and four milk jugs.

These articles were purchased for the summer camp. In order to raise the Chapter's funds it was decided to hold a tea on Friday, September 12, at the home of the regent. Tea was served by Mrs. Porter, Mrs. Knight and Mrs. Mather.

The regular monthly meeting of Chemainus Review No. 12, W.B.A. was held in the evening in the Knights of Pythias Hall. Mrs. Gladys Cook presided.

Reports from non-resident members were read, also a letter of thanks from Mrs. McNiel in appreciation of visits and flowers while recovering from an accident. Mrs. Jack Underwood and Mrs. Sidney White were appointed to buy ribbons for staff decorations and making scarves for two officers. Mrs. McKay, convener of the apron committee, asked them to meet at the home of Mrs. Robert English on Tuesday afternoon, September 9. Arrangements were made to hold a whist and bridge drive in Chemainus resulting from the Coalport mine disaster. Birthday greetings were given to Mrs. McKay by Mrs. D. Murray and to Mrs. Cherrington by Mrs. Frank Work. The president's birthday being the same date as the meeting.

She was the recipient of a birthday gift from the review which with birthday greetings were presented by Mrs. English.

The W.A. to St. Michael's and All-Angels Church held a week-end meeting at the home of Mrs. Alexander Work. Mrs. Walter Porter was in the chair; others present were Mrs. Jack-

MURDER AND  
SUICIDE IN THE  
TERMINAL CITYJapanese Kills Sweetheart,  
Wounds Her Mother and  
Ends Own Life

Vancouver, Sept. 10.—A tiny room at the rear of a Japanese rooming house on Alexander Street here was turned into a shambles shortly before last midnight when a Japanese killed his sweetheart, probably fatally wounded the girl's mother and then killed himself.

Emi Oika, sixteen, was killed by Tachizo Yoshida, thirty-five, who ended his own life.

The wounded woman is Mrs. S. Oika. The girl was stabbed to death, police said.

Her mother succeeded in crawling upstairs, suffering from numerous knife wounds on all parts of her body. Yoshida was discovered lying near the body of the girl on the floor of the room. He expired just as Detective H. H. Duggan reached his side. When the body was turned over a knife with an eight-inch blade was found sunk to the hilt.

Yoshida was paroled for the Japanese rite of hari-kari, police were informed. He was clad only in a pair of overalls. Around the waist was tied a white cloth, and a similar cloth was knotted about the head.

SASKATCHEWAN  
WINDSTORM  
CAUSES LOSS

Regina, Sept. 10.—A wind and rain storm raked Central Saskatchewan yesterday evening, rising to the fury of a near-tornado some time before it subsided. Garages were torn from their moorings, sheds and granaries were dislodged and smaller buildings were lifted bodily by the force of the wind. The rain came down so heavily it was impossible to see across the main street.

At Dsley, north of Regina, the storm broke hundreds of windows and even shattered heavy plate glass in store fronts. Telephonic communications were cut off.

Ella Bank Sets  
New Track Mark  
To Win Handicap

Winnipeg, Man., Sept. 10.—Ella Bank of the Tarn Stable, won the feature event, the Saskatchewan handicap, at the second day of the Whittier Park meeting yesterday. The distance was

5½ furlongs and Ella Bank reduced the track record to 1:07 2-5. Fort Worth, the favorite finished second and Dutil Don third. Ella Bank paid \$185.50. A new mark for 4½ furlongs was also made, Subway Tube turning the distance in 1:30 1-5. Long prices prevailed in nearly every race. Be, in the first race, being the only favorite to win.

The principle of the range finder has been applied to a new double microscope for measuring the depth of minute objects accurately.

END OF FEDERAL  
INCOME TAX IS  
ADVOCATED

Hamilton, Ont., Sept. 10.—Resolutions urging the withdrawal of the Federal and Provincial governments from the field of direct taxation and abolition as soon as possible by the Federal Government of the Dominion Income Tax featured the concluding business of the annual meeting of the Union of Canadian Municipalities here yesterday.

The election of officers resulted as follows: President, Mayor M. D. Crommer, Edmonton, N.B.; first vice-president, Mayor John Feebles, Hamilton; second vice-president, Mayor L. L. Stewart, Vernon, B.C.; third vice-president, J. Prudhomme, K.C., city solicitor, Winnipeg; secretary-treasurer, S. Baker, London, Ont.

A resolution approved requests the Federal Government make provision for the immediate relief of unemployment by undertaking necessary public works or by grants of assistance toward a portion of the cost of public works instituted by municipalities for relief, and further that the government create a fund to be built up by annual appropriations to take care of the cost of the unemployment relief works in time of acute industrial depression.

## FIRE CHIEFS MEET

Winnipeg, Sept. 10.—Firemen of the future will be graduates of fire colleges, where they will receive highly specialized training in all phases of their profession, Chief Ralph J. Scott, president of the International Association of Fire Chiefs, declared at the first business session of the fire chiefs' annual convention here yesterday evening.

## MR. MASSEY'S RESIGNATION

**PUBLICATION OF HON. VINCENT**  
Massey's letter to Premier Bennett, in which the former Canadian minister to the United States resigns his position as High Commissioner for Canada in Great Britain, is a clear indication that the new government at Ottawa proposes to place this Dominion's diplomatic service on a political basis—a policy which the neighboring republic follows with often unfortunate results. Although Mr. Massey had not assumed his duties in London, his appointment dates back to July 23; his successor, however, will be one "in close political association with the government of the day."

Mr. Massey's removal from the diplomatic service of this country will be regretted by a very large and influential section of the Canadian public. During his three and a half years as Canada's first minister to the United States he discharged the important tasks of his office in a manner which not only earned for him a particularly flattering commendation from Sir Esme Howard (as he then was), who was closely associated with Mr. Massey during the whole period in which the former represented Great Britain as her ambassador to Washington. Mr. Massey's knowledge of Canada, his intimate understanding of the various problems which confront the empire in its relationship with other countries, stood him in good stead at the United States capital. Hence, on this account, and especially by reason of the experience he had gained in a diplomatic service still young, he was considered the logical successor to the late Mr. Larkin at London.

There is no suggestion that Mr. Bennett will have difficulty in finding a suitable candidate for the post which Mr. Massey now has vacated. But his first official course with Canada's senior diplomatic representative abroad is hardly an indication that the new government will improve the system. Indeed, it is in striking contrast with the position Sir Wilfrid Laurier took when he assumed office after the general election of 1896. Two months prior to the defeat of his government Sir Charles Tupper appointed Lord Strathcona, an ardent Conservative, to the position of High Commissioner; but Sir Wilfrid did not think it essential that this Dominion's representative at London should be one "in close political association with the government of the day." All through fifteen years of Liberal government at Ottawa, Lord Strathcona remained at his post in Great Britain, to relinquish it only when death intervened in 1914.

## HOW GANGLAND THRIVES

**QUITE RIGHTLY, SEVERAL UNITED**  
States newspapers contend that the time to curb gang murders is before they have become a menace to public safety. They point out that Chicago has failed to take this precaution and, on this account, they admit the republic has a very difficult problem on its hands.

It is an old adage that an ounce of prevention is worth a pound of cure. But it is not necessary for The Times to suggest that there are several cities on this continent which might, with profit, consider the plight in which Chicago at the present time finds itself. Chicago's gangs are a portent for the law-abiding people of every community. Every large city has its obnoxious element in embryo. It is the duty of those in authority to subject them. One American commentator has something to say about it, and he is frank about his own country. We quote him in part:

Detroit, St. Louis and Cleveland have all been troubled by gang fights. Cleveland's situation is a case in point, worth examining briefly because it illustrates the general rule so perfectly.

The bootleg liquor business in Cleveland, as in every other large city, is controlled by certain lawless gangs. These gangs, since they operate outside of the law, cannot go to court over trade disputes and sales agreements. They have only one remedy—the gun. Recently they have been using this remedy in Cleveland very effectively.

Five gangsters have been killed on Cleveland's streets in the last few weeks. The story is the same in each case; rivalries over territorial rights, sales agreements and the like in the bootleg business. In each case the police tell how certain "known criminals" are suspected, and how certain "known speakers" are involved in the warfare. In each case the higher-ups are men of considerable wealth and political influence.

Now the point is that this is precisely the way all Chicago's trouble started. Chicago let it go; its citizens didn't feel that it mattered much if the bootleggers did take pot shots at one another. As a result, Chicago's gangs today are entirely out of control, and the prospect of putting them down is very slim.

In Cleveland it is not too late. Swift and efficient action by the police and prosecutor could put the gangsters where they belong. And Cleveland is mentioned specifically here only because it is typical of other American cities.

In other words, the time to curb the gangs is before they have reached their growth. Chicago failed to do it, and has a terrible mess on its hands as a result. Cleveland—along with Detroit, St. Louis, Pittsburgh, Omaha and a dozen other cities—can still do it.

If it fails, it will, eventually, be where Chicago is to-day.

These underworld shootings are not trivial affairs in any city. They are symptoms of a very dangerous situation. The only way to deal with them is to clean them up promptly. Delay—as in Chicago's case—is fatal.

The point which ought to be considered is that if the proper amount of parental care and guidance were given during the years when the youth of the country could absorb advice, a good deal of later delinquency would be avoided. But if parents of the present day are not sufficiently interested in the general welfare of their boys and girls, they must expect some of them to go wrong.

We in this country of broad acres, so many of which await the touch of the hand of man, should be

able to direct the rising generation toward the land. The family raising sufficient foodstuffs for its own sustenance will neither starve nor become hostile toward the social structure. The closer our people get to Nature, the more contented they will be.

## MIGHT INVITE REPRISALS

**PREMIER FERGUSON HAS LAUNCHED**  
a campaign to stimulate the buying of Canadian products in preference to goods imported from other countries. He is going to use the radio a good deal to tell the people of Ontario about certain foreign commodities that are displacing Canadian articles in the Canadian market. He will refer to some of them especially—dropping the plain hint as to what the housewife ought to do in the matter.

There is much to commend a campaign of this sort; but there are one or two points that should be borne in mind. If the Premier of such an important province as Ontario shall "go on the air" to tell his compatriots that they should not buy the goods of this or that manufacturer in the United States, or this or that exporter in Great Britain or Australia, he is inviting reprisals. Tariff wars are bad enough; but if they are to be intensified, no matter by what means, trouble will be found.

There also is the question of using public funds for any campaign which, as in the case of Ontario, would select certain private interests for more custom. The function of advertising Canadian goods, of urging consumers to buy this or that article, should be discharged by the producers themselves. The Times is all for supporting home industry wherever possible. This is a highly competitive age, however, and the products of our farms and our factories must be able to compete with all comers in both price and quality if they are to gain in popular favor and demand.

As The Times has pointed out several times, the housewives of Canada now have a fine opportunity of doing their bit—and it could be a big bit—toward relieving unemployment. The way lies open to them to resolve to ask for Canadian goods, and a ten per cent increase in the present demand would furnish a good deal of additional employment in every community from the Pacific to the Atlantic. But a government campaign such as that Premier Ferguson is conducting may do more harm than good in the long run.

## THE CHURCH AND PEACE

**WHEN THE WORLD SETTLED DOWN**  
after the war and began to speculate upon what forces might have prevented the catastrophe, it was not uncommon in some quarters to charge up a considerable amount of delinquency to the church. It was argued by these critics that if the leaders of Christian thought in the various countries had devoted more attention to the building up of a sentiment hostile to war, the governments of 1914 would have paused long enough to avert the tragic events from which it will take a century to recover.

Whether the churches fell short of their duty before the Great War or not, however, there are indications that their influence will be felt to some purpose in the future. At the recent Lambeth Conference several hundred bishops and archbishops of the Church of England denounced war as being, under ordinary circumstances, "incompatible with the teachings and example of Christ," and resolved that where a government has not declared its readiness for arbitration or conciliation the Christian church in that nation should refuse to countenance any war. Complementary to this decision is the effort now being made to arrange co-operation between all world religions in the interest of universal peace, when the George Washington bi-centenary in 1932 will be used as an excuse for assembling representatives from all the great churches for this purpose. With this object in view, the preliminary arrangements recently were made at Berne, Switzerland, when sixty delegates, including Christians, Jews, Moslems, Hindus, and Buddhists met as a committee.

The world has progressed a long way towards peace since the end of the war. The League of Nations has grown in force and no longer is described as merely an international debating society. But if it is to achieve its high purpose, public opinion in every country must be solidly behind it. And there should be no more potent agency for the development of that public opinion, of a will to peace, than the church. Governments inclined to promote provocative policies quickly would bow to the influence which the intellectual and spiritual forces of the nations ought to be able to wield.

## WHAT OTHER PAPERS SAY

**REPRESENTATIVE PEERESSES**  
The Manchester Guardian

In their own interest the peers should surely have welcomed the advent of peeresses—that is, the twenty who are peeresses in their own right—to seats in the assembly. Anything that would help to popularize the Upper House without infringing its privileges would surely be to their advantage. But the political emancipation of women is scarcely more than ten years old, and it was perhaps optimistic of Lord Astor to expect a majority of his colleagues to have realized its significance so soon. He may be encouraged to try again by the fact that the majority against him was small and the arguments equally meagre.

**SNAPPY RAILROADING**  
The Chicago Tribune

London reports that a new type of English sleeping car has been put in service. It is described as a "bed-room car fitted with deep rubber floors, colored lights and patent ventilators." The room is finished in a soothing pale blue, containing a full size walnut bed with springs and mattress, running hot and cold water, large beveled mirrors, folding tables and heavy shutters, insuring complete darkness. There is a padded niche for a watch at the bedside, where there are also switches regulating the flow of cleansed hot or cold air. The lights dim or brighten at will. The traditional conservatism of the English people doesn't get into their railroading. That seems to be operated by restless and aggressive inventiveness which seeks constantly to make a good thing better, to provide more speed and more comfort.

## A THOUGHT

Ye shall make you no idols nor graven image, neither shall ye set up any image of stone in your land to bow down to it; for I am the Lord your God.—Leviticus xxvi. 1.  
God will put up with a great many things in the human heart, but there is one thing that He will not put up with in it—a second place. He who offers God a second place, offers him no place.—Bucklin

## Loose Ends

The University of Chicago has lately performed a magnificent service to humanity. It has investigated countless cases of dishwashing in American homes and has found that it takes on the average thirty-eight minutes and eight seconds, and requires 1,954 motions to make a job of the average family's dishes. But that does not indicate the complete scope of this great experiment. The investigators have gone farther and ascertained that the 1,954 motions are just 950 motions too many, for the dishes actually could be washed in twenty-two minutes and fifty-eight seconds, through the "application of office efficiency to the dining-room and kitchen." And then occurs this delightful finding: "This would save the dishwasher fifteen minutes for cultural reading with ten second to take off the apron and take on the book."

By H. B. W.

**THE UNIVERSITY OF CHICAGO** has lately performed a magnificent service to humanity. It has investigated countless cases of dishwashing in American homes and has found that it takes on the average thirty-eight minutes and eight seconds, and requires 1,954 motions to make a job of the average family's dishes. But that does not indicate the complete scope of this great experiment. The investigators have gone farther and ascertained that the 1,954 motions are just 950 motions too many, for the dishes actually could be washed in twenty-two minutes and fifty-eight seconds, through the "application of office efficiency to the dining-room and kitchen." And then occurs this delightful finding: "This would save the dishwasher fifteen minutes for cultural reading with ten second to take off the apron and take on the book."

**IN THE LIGHT** of this discovery you can just imagine the frantic stampede of studious dishwashers from the sink to the bookshelf, to save fifteen minutes of higher culture. But what the investigators have totally overlooked is the fact that in rushing from the sink to the bookshelf the dishwashers will be leaving a higher amount of wisdom to seek lower one. What they don't know is that there is more of wisdom, more of real life in washing dishes quietly, contemplatively with a congenial companion than in a full hour of cultural reading. I have found it so whenever I have tried it, and I attribute my ignorance to the fact that I have washed dishes so self-efficiency may reduce the motions of dishwashing by 950 motions, but this kind of efficiency is bad enough in the office without inflicting it on the innocent homes of the country.

**THE POSSIBILITIES** of the radio, it now appears, are but dimly appreciated on this side of the Atlantic. Over in Europe, with greater experience in such matters, they have put it to remarkable new uses. Three times a week, if you were in Berlin, you could tune in on Moscow and listen to the most delightful Bolshevik propaganda imaginable, beginning always in these chaste words: "Police and soldiers of Germany, remember you are proletarians in uniform! Remember that in Germany, too, the right way is the revolutionary way! Long live the German Soviet Republic!" After that comes a blood-curdling expose of the members of the present German Government who, from President Hindenburg down, are described mildly as "Capitalist bloodsuckers, betrayers of the German proletariat." This has been going on for months, and when the German Government protested to Moscow, the Bolshevik Government calmly replied: "The programmes to which exception is taken are not broadcast from Moscow for purposes of propaganda among the German people. They are broadcast in German for the benefit of German colonists in our own Volga basin."

**BUT THAT** is not the end of these international exchanges. In Roumania the Russian propaganda is easily picked up on any radio, and is very annoying to Roumania. The Roumanian government has been afraid for some time that Russia may seize Bessarabia, which Roumania took from Russia after the war. The Roumanian Government has proved itself equal to the occasion. It could not stop Russia broadcasting its programme, but it could prevent Roumanians from hearing it. This it did by building a powerful broadcasting station of its own which, as soon as the broadcast from Moscow is heard, assaults the atmosphere with the repeated sound of "Blah, Blah, Blah," until the poor Roumanians turn off their radios in despair. Roumania has completely blab-blahed Moscow off the air.

**THE POSSIBILITIES** of this system are considerable. In time of war, when nations are broadcasting their own propaganda to undermine the morale of the enemy, the latter will be able to prevent any of these messages reaching their people by filling the air with a still greater clamor. In Berlin they have invented a radio which can be heard for miles, and they are going to put it on a balloon anchored above the city to broadcast music to the native population of the place. No rival blab-blah broadcast can stop such sounds penetrating behind the enemy's lines. Some still greater noise will have to be invented to counteract it. In the end war will probably be so terrible that the nations will give it up in disgust.

**MORE DATA** has just come to hand on that absorbing theme of ancient bathing customs, to which this column has recently been devoting all its great powers of research. An English editor has carried on a similar investigation, and he has found out some facts about the habits of our British ancestors in the eighteenth century which seem as shocking on the one hand as the new law to make the Polish people bathe once a month seems on the other. In eighteenth century England, it is shown, a bath, even among the nobles, was thought of as a novelty not to be taken without ceremony, and a bathing suit. One well-known lady, Mrs. Montagu, complained that when she visited the Duchess of Portland at Bulstrode she had the greatest difficulty in obtaining a bathtub "that was capable of holding water." But after some trouble she was able to

write to her friends in triumph: "My bathing-tub is now ready for me, so to-morrow I shall go in," as if she were about to embark on a perilous cross-Channel swim.

**BUT THAT** did not end the difficulties of poor Mrs. Montagu. She wrote desperately to her servants at home: "Pray look for my bathing-dress. I'll then I must go in 'chemise and jupon.' And if it is not indecent to imagine it, what a spectacle Mrs. Montagu must have presented, thus attired, in her private, leaky bathing-tub, with more clothes on than you would ever find at one of our public beaches. At the same time, Miss Dorothea Gregory was finding similar difficulties in Edinburgh. From there she wrote to friends: "I find there is a cold bath in the house. Miss Gordon thinks I shall do well to make use of it, but as I was not aware of such a thing being in the house, I did not bring my bathing-dress with me. And, of course, the poor girl simply had to go dirty."

**The Weather**

1930, while during the campaign he had said he was more in favor of the return of the Liberal Party. Mr. Bourassa said he was opposed to wholesale British preference. The election of twenty-five Conservatives in Quebec in the recent campaign, Mr. Bourassa said, was a great step toward a greater Canadian nationalism. It was foolish to expect the House to solve the unemployment problem in fifteen days. The people of Canada, Mr. Bourassa said, never expected a government to redeem all its pledges. As no other member rose to speak, the motion for the address in reply to the Speech from the Throne was put and approved without a vote. Mr. Bennett then moved the House should go into committee of ways and means on Thursday. This motion carried without discussion and the House adjourned.

## EMPIRE CONFERENCE NOT TO BE SMOKE SCREEN FOR BENNETT, DE CLARES KING

(Continued from Page Two)

In this country that industry was not suffering from lack of production but from low prices, and the general conditions of unemployment were responsible for these low prices. There were differences of opinion as to whether amendments to the Customs Act would improve employment conditions. During the campaign it had been said the cause of the trouble was that Canada imported too much. It was worth while to analyze such a statement and see what measure of truth lay therein. Mr. Gardiner declared those who said imports were paid for by Canadian money did not know what they were talking about. It was a well established economic fact that imports were paid for by exports.

## LABOR VIEWS

The Labor group was glad the unemployment situation was at last receiving the serious consideration of the country and the Government, said J. E. Woodworth, Labor, Winnipeg north centre. The only remedy suggested in the Speech from the Throne, he said, was a change in the customs tariff. The demand for higher tariffs, Mr. Woodworth went on, was but another instance of a post-war recrudescence of nationalism. "Tariffs are a menace to world peace. In the past, tariff wars have led to physical wars," he said. "I am sorry unemployment insurance is not included in the speech from the Throne," Mr. Woodworth declared. One proposal for a national highway among Mr. Woodworth's thoughts, he said, but such relief would only help a small portion of the unemployed who were fitted to such work.

## BOURASSA SPEAKS

Henri Bourassa, Independent, La-Belle, Que., said the leader of the opposition was hardly justified in the suggestion that he was opposed to the present administration. He had been elected as an independent in 1920 and

## LABOR LEADERS URGE SPEEDING OF NEW WORKS

Requests to Reduce Unemployment Sent to Ottawa by Trades Congress

Regina, Sept. 10.—Establishment of an unemployment insurance scheme, adoption of the recommendations discussed at the recent meeting of the Employment Service Council of Canada at Ottawa, and other requests, aimed at alleviation of Canada's unemployment situation, were telegraphed yesterday evening to the government, now meeting in parliament session at Ottawa, by the Trades and Labor Congress of Canada in annual convention here.

In addition, the message strongly urged immediate action at this session of parliament for the alleviation of the acute unemployment conditions existing throughout the country, and "recognizing the probable continuance of the unemployment problem," urged that steps be taken effectively to prevent a recurrence of the present situation.

## EIGHT-HOUR DAY

The message, addressed to Hon. R. B. Bennett, Prime Minister, in full, urged:

1. The immediate putting into effect of the recommendations adopted by the Employment Service Council of Canada at its recent meeting.

2. The limitation of the hours of work to not more than eight per day and five days per week on all government works and contracts, and all works toward which the Federal government may grant a measure of relief carried on by provincial governments or municipalities.

3. Measures toward the establishment of a national scheme of unemployment insurance.

4. The strict enforcement and maintenance of regulations prohibiting the entry of immigrant labor into Canada.

The message was signed by Tom Moore, of Ottawa, president of the Congress, and P. M. Draper, Ottawa, secretary.

## RECOMMENDATIONS

The list of resolutions passed at the Employment Service Council meeting held at Ottawa August 31 and 32, referred to in the recommendations of the Congress, urges the Dominion, provincial and municipal authorities to commence or continue works of a permanent nature, such as building and construction; lays responsibility for the situation now existing jointly on the municipal, provincial and Federal governments; asks the three forms of government to use their influence with private individuals and corporations to carry on contemplated construction; urges them to place advance orders for all lines of supplies and equipment, and asks preference in placement of work to men with family responsibilities in close proximity to the communities in which their families are located.

The recommendations also ask employers of labor, when compelled to resort to part-time labor, to distribute the available work equitably among the whole number of workers employed. Cases where direct relief must be given, it recommends that costs should be evenly divided between the municipality, province and Dominion.

Where municipal and municipalities cannot afford to meet their share, the province and Dominion should bear the costs, it is held.

An immediate survey, the recommendations say, should be made, fol-

lowed by such legislative changes as will result in the production by Canadian labor of such commodities as heretofore imported as the survey discloses can be efficiently and economically produced within the Dominion.

The Federal government should give all possible encouragement to the efficient marketing of Canadian grain, farm produce and other primary products, it is held.

## REVISED RESOLUTION

When the Congress resumed its deliberations yesterday afternoon, a revised resolution recommending unemployment insurance, shorter work day, restriction of immigration, and that no manufacturer or employer be allowed to import labor without first having the employment service bulletin all such requests throughout the country, was taken up.

Deliberately the delegates set to work on the resolution, and it was not until late in the evening that it was finally adopted. It was pointed out during the discussion, by President Moore, that the resolution covered no territory, instead it contained matters for which the Trades and Labor Congress had been fighting for years.

The consensus of opinion among the delegates was that shorter hours would assist greatly in providing work for many unemployed. The present scale of wages, however, should be maintained, despite the shorter hours, for the standard of living, they said, "was too low now."

## SIMPSON SPEAKS

Immigration was greatly responsible for the present conditions, according to James Simpson, Toronto. He quoted statistics to show that in one week 430 jobs had been sent to the harvest fields from Winnipeg, and that same week 474 immigrants had been shipped to the city. Increasing use of machinery was also responsible for the trouble, he said.

After prolonged discussion, the revised resolution received the approval of the Congress, and it was then de-

clined to notify the Government of the stand the organization had taken.

**HOURS OF WORK**  
Earlier yesterday the long hours worked by taxi, bus and truck drivers had received considerable attention, finally being placed on the agenda to include all parts of the Dominion instead of just Ontario, as the original resolution had read. Yesterday evening the delegates were informed by the local typographical union.

A short session was listed for to-day for the entire convention was invited to motor to Moose Jaw, starting shortly after noon.

## B.C. Electric Shows Increase Despite Slump

Increase in B.C. Electric Railway Company's gross earnings in July, over the total for the corresponding month of last year, despite dull business in some lines, were announced by the company to-day.

There was also an increase in operating expenses. The company's statement shows the returns as follows:

Gross earnings, July, 1930, \$1,196,239; July, 1929, \$1,156,120; increase, \$40,119. Operating expenses, July, 1930, \$640,478; July, 1929, \$639,458; increase, \$1,020.

Deducting the foregoing operating expenses from the gross earnings shows net earnings for July, 1930, of \$555,761, against \$516,662 in July, 1929; an increase of \$39,099.

Truthful, Anyway  
"Pardon me, sir, will you kindly change me this ten-dollar bill?"  
"Change you that? But it's no good!"  
"I know, that's why I want to change it."

**PEP BRAN FLAKES**

GERMANY DROPPING  
MILITARY "KULTUR"

Berlin, Sept. 6.—Germany is rapidly shedding its military military exercise as a means of maintaining physical fitness in favor of a return to the Greek ideal of athleticism in its "Freikorperkultur" organization.

This cult, rapidly spreading over the country, governs nude bathing, orthopedics, dieting and other activities belonging to the revival. The nude bathing angle sounds shocking to some, but no harm has come from it, for cleanliness of mind is sought after as well as body. A sound mind in a sound body is the organization's slogan, and persons are not admitted to the enclosed nude bathing pools unless they are members of the cult.

Sunshine is playing a big part in the cult's work, and every member spends much of his time under the sun's rays or under artificial rays.

## Ganges

Mrs. S. P. Beech and her daughter, Miss Gladys Beech, have left Ganges for Victoria, where Miss Beech will join the staff of the Royal Jubilee Hospital as probationer.

Mrs. Desmond Crofton, accompanied by Miss Dulcie Crofton and Master Paddy Crofton, have left on a visit to Victoria.

Mrs. Rosman of North Salt Spring is visiting in Victoria.

Mrs. D. Hamilton of Ganges spent the week-end with relatives at Keating, Saanich.

J. H. Kingdom of St. Mary's Lake, was a visitor to Victoria over the week-end. He was the guest of Mr. and Mrs. W. Burbridge of Saanich.

Miss Elizabeth Monk of Beaver Point, South Salt Spring, who recently completed her course at the Sprout-Shaw School in Victoria, has taken a position as stenographer with Moust Bros. at Ganges Harbor.

Residents of the island will regret to learn of the illness of Miss Ruth Freeman, popular teacher at Ganges Junior Public School. Mrs. Stanley Wagg is filling the position until Miss Freeman is able to return to duty.

Mr. and Mrs. R. Justice and family have returned to Ganges after spending a vacation in Vancouver.

Lyndal Bittancourt has returned to Ganges after an absence of several months.

Mrs. Lacey of Ladner, B.C., has arrived on a visit to her sister, Mrs. W. Laidler of Isabella Point.

Mrs. N. W. Wilson of Barnsbury, who has been spending a holiday in Vancouver with friends has returned to the island.

Mrs. Howard Horel of Beave Point is in Vancouver on a business trip.

Miss Gladys Borradaile has returned to Ganges from Vancouver, where she has been spending a holiday with friends.

Campbell Forbes and T. Tye of Victoria spent a few days recently on the island as guests of Mr. and Mrs. N. Wilson at Barnsbury.

Douglas Layton, who has been spending a few days at Ganges, the guest of Mr. and Mrs. Desmond Crofton, has returned home.

Graham Shore and K. Partington, who have been guests of Mr. and Mrs. A. G. Crofton at Ganges have returned to Powell River.

Mr. and Mrs. Basil Cartwright and their son, Master Peter Cartwright, accompanied by Mrs. C. E. Thomson, have been spending ten days camping at North Salt Spring.

Mr. and Mrs. R. O. King returned to Ganges this week after a trip on the Princess Maquinna up the West Coast.

Mr. and Mrs. Le Jeanne and family of Santa Barbara have been visitors to the island as guests of Capt. and Mrs. V. C. Best at "The Alder," Ganges Harbor.

Mr. and Mrs. James Pollock, who have been spending the summer on the island, guests of Mr. and Mrs. Hugh Pollock of "Lyonesse," Beaver Point, have left for their home in Cyprus.

W. Cearley has returned to Pultford after a visit to Vancouver.

Mr. and Mrs. Renworth of Vancouver, who have been guests of Mr. and Mrs. H. Pollock at Beaver Point for several weeks, have returned home.

Major and Mrs. A. Rowan and their four daughters have returned to Vancouver after having spent the summer at their home on Ganges Harbor.

Major R. Hill left Ganges this week for Shawinigan, where he will join the staff of Shawinigan Lake School.

Miss M. Scott of the staff of the Duncan Hospital, has been spending a few days with her parents, Mr. and Mrs. W. E. Scott, Ganges Harbor.

Miss Monica Bryant, who is the guest of her uncle, Col. Bryant, at Pultford, has been spending a few days at Ganges with Mr. and Mrs. F. L. Crofton.

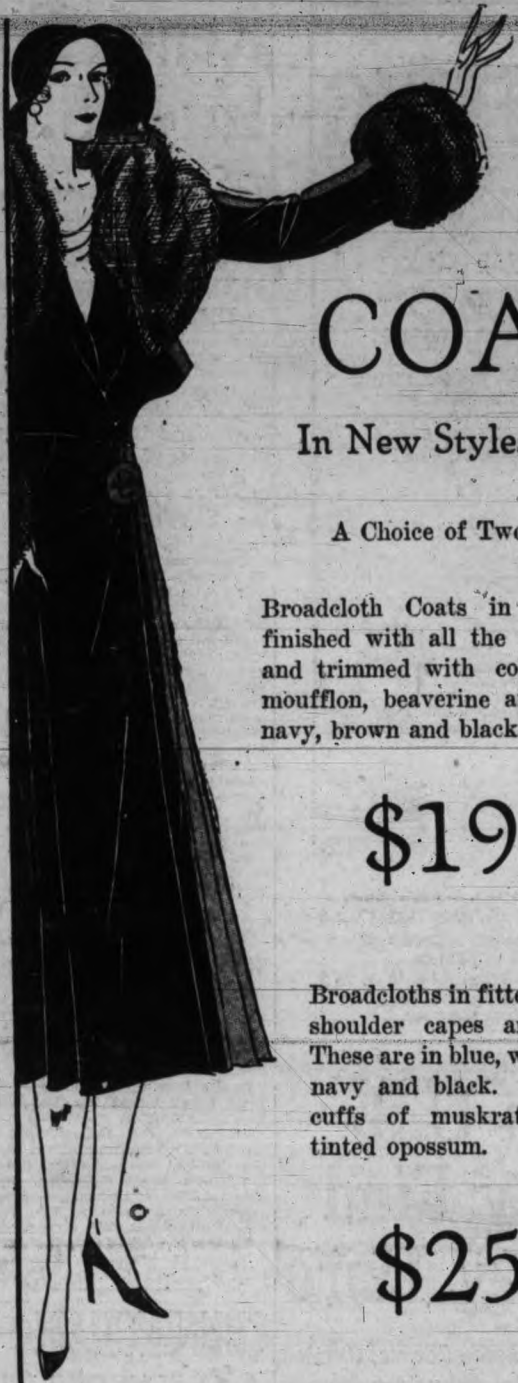

Master Raymond Best left this week for Victoria, where he will be the guest of Capt. and Mrs. Slater.

# Deer Reported Plentiful For Opening of Season Saturday

## THE SPORTS MIRROR

ONCE AGAIN athletes from British Columbia have demonstrated their superiority. On Monday at Prague the University of British Columbia girls' basketball team won what is claimed to be the women's world basketball championship by defeating the French representatives, the only other entry, 18 to 14. The B.C. girls, even though forced to play under a handicap, displayed a marked superiority over the Europeans.

The U.S.C. team will be known as world's champions, but they will never be able to rightly claim the title until they have succeeded in defeating the famed French Grands. The latter were unable to make the trip to Prague this year and the U.S.C. girls were given the chance to go by the Canadian association. The Grands have beaten every team of note on the North American continent and late this season triumphed over the U.S.C. girls in the Dominion play-offs.

Despite the heavy clouting of the New York Giants and the Boston Braves last week, it was the St. Louis Cardinals and Detroit Tigers who ran away with the weekly honors. The Cards and Tigers each won five games without once meeting defeat, and led their respective circuits.

The Cards had things all their own way in the National League, while Brooklyn's three victories and two defeats in a short schedule were good for second place. Cleveland and Philadelphia gave the Tigers a somewhat closer race. Each were defeated once, the Indians winning seven games and the Athletics six. Washington came in fourth with five victories and two setbacks.

The New York Giants were far ahead in slugging, cracking out 138 hits in 70 runs. The Braves tallied 60 times on 103 hits, while the Cleveland Indians, with 87 runs and 100 hits, led the American League. Washington took second place in the junior circuit slugging competition, making 39 runs and 70 hits, a record that nearly every National League team passed.

The Giants drove out ten home runs to top the majors in that respect, while the Athletics headed the American League with seven, a mark equaled by Brooklyn, Boston and Chicago in the National.

Defensively the two leaders outshone all rivals, each had only sixteen runs scored against them in six games. The Athletics, with eighteen opposing rallies in seven were the best. The Cardinals topped them in fielding as well, making only two errors. Detroit committed twelve mistakes, three above the American League leaders, Philadelphia and Washington. Pittsburgh kicked away fourteen chances.

The Chicago White Sox proved the weakest of the teams in getting runs. Chicago tallied only fifteen times in seven games. The Boston Red Sox made eighteen tallies and lost seven straight games, while Cincinnati was third from the bottom with nineteen tallies.

Mickey Cochrane of the Philadelphia Athletics says his own ability surprises him. It's also quite a shock to the boys who try to steal second on him.

No matter how thin you slice it, it's still a hot ball.

New York scribes are engaged in heated controversy over whether Hogan or Lopez is the best catcher in the National League. If O'Donoghue was picking the best National League catcher, he says he would allow either Hogan or Lopez to warm up the pitcher until Gabby Hartnett got on his mark.

Bill Killefer, manager of the St. Louis Browns, recently went scouting in an airplane. That's once Bill got his head above the clouds this year, anyway.

## Old Country Cricket

London, Sept. 10.—The South of England team defeated the Marylebone Cricket Club eleven at Fallowfield yesterday by seventy-six runs. Scores were: South England 210 and 217 (Moore 101 not out, Hearn five wickets for ninety-five runs); M.C.C. twenty-one and 194 (Freeman four wickets for fifty-four runs; Robinson four wickets for thirty-eight runs).

The match between Lord's and the M.C.C. South team was abandoned when no play was possible yesterday owing to rain.

## Hundreds To Trek Into Woods After Bucks and "Blues"

Reports Indicate Many Deer Located in All Districts; Recent Fires Have Killed Off Large Number of Blue Grouse; Large Number of Hunting Licenses Being Sold; Hunters Reminded That Does Are Out of Season; Also Warned Not to Shoot Before They See Object.

Saturday morning will witness the annual trek of hundreds of hunters into the woods of Vancouver Island as it will mark the opening of the 1930-31 hunting season. Deer and blue grouse are the only game that become lawful this week-end, but as both of these are popular it is expected that the woods will be resounding with the shots of many rifles and shotguns on Saturday and Sunday. According to sporting goods dealers an unusual number of hunting licenses have been sold, one firm alone dispensing over 200 permits.

Reports from all parts of the Island indicate that deer are very plentiful. Campers and fishing parties around Shawnigan Lake, Sooke, Jordan River, Highland districts and farther north in the vicinity of Comox, Courtenay and Cumberland have seen large numbers, so many good-sized bucks will no doubt be killed on the opening days.

DOES OUT OF SEASON  
Hunters are reminded of the fact that only buck deer are lawful game this season. Last year an open season was declared on doe deer to the extent that every hunter was given the privilege of killing one doe, but this year the season has been closed again on the females.

The deer season in all districts, except Queen Charlotte Islands and those portions of Vancouver Island known as the North and South Saanich and Highland districts, extends from September 13 to October 31, both dates inclusive.

In the North and South Saanich and Highland districts the season is from September 13 to October 31, both dates inclusive.

If the present warm weather continues deer hunting may not be very successful this week-end. With the woods so dry the game will be able to hear the slightest move of the hunters, making it easy for them to get to cover.

The bag limit on deer is three males for the season.

BLUE GROUSE SCARCE  
A scarcity of blue grouse is reported and has been caused mainly through recent forest fires, which wiped out a lot of the young birds in the nests. The season on blue grouse throughout Vancouver Island, except South Saanich and Highland districts and Hornby and Denman Islands, extends from September 13 to October 31, both dates inclusive.

The season in the Highland districts is from September 13 to September 30, and on Hornby and Denman Islands from September 13 to September 21.

The daily bag limit on grouse is five, with a limit of twenty-five for the season of all species.

Hunters are again reminded of the warning issued by Attorney-General Pooley, telling hunters not to shoot at a moving object until they are certain of what it is. There were three fatal accidents on the Island last season, and it is with the hopes of eliminating such fatalities that the hunters are asked to make sure they are not shooting at another man.

The game officials also ask hunters not to go into the woods until they are familiar with the game regulations, a copy of which can be obtained from any of the sporting goods stores.

## Carpet Bowling

A meeting of the executive committee of the Capital City and District Carpet Bowling League will be held at the Civil Service Club Rooms, Menzies Street, on Friday, September 19, at 8 o'clock, when arrangements will be made for the forthcoming season.

Due to the increase in the number of players registered last season, it is anticipated that there will be an increase in the number of entries this year to the league. Many of the clubs now have women taking up carpet bowling and it is the intention of the league officials to commence a women's league if the number of entries warrants it. It is urged that the entries of women's teams be made to Honorary Secretary, W. B. Colvin, 1534 Yale Street, on or before the date of the meeting in order that the committee may be in a position to decide what course to take in the matter. It is now in order to make entries to the men's league but a final date for filling entries will be fixed by the committee at the meeting.

Singer's 135-pound crown will not be at stake. Fans apparently refuse to get excited about a bout between a hard hitting lightweight champion and an even harder hitting welterweight, even though the principals are two of the best drawing cards in the business. Advice from Singer's camp indicated the lightweight champion would scale about 135 pounds, but some experts look leave to doubt it. The Bronx kid was scaled around 133 and 134 for virtually all of his important fights in recent months, and may be no heavier for McLarnin. The Vancouver dynamiter probably will scale about 141, a pound under the 142 limit for which the contracts call.

## "Lefty" Groves About Cinches The Pitching Title

Chicago, Sept. 10.—"Lefty" Groves, star southpaw of the Philadelphia Athletics, has all but clinched the 1930 major league pitching crown but he stands a long distance away from the modern baseball record established by Joe Wood former Red Sox star.

Groves has won twenty-six games and lost but five for a .839 percentage. Wood won thirty-four and lost five for the Red Sox in 1926 for the best modern record—a percentage of .872.

## N.S.W. Fifteen Wins Match From British Rugger

Sydney, New South Wales Sept. 10.—New South Wales defeated the touring British rugby team by 28 to 3.

## SEVEN JUNIOR TEAMS ENTER

Draw Is Made for Opening Matches in Junior Football; T. Briggs Is President

Seven teams will comprise the Junior Football League this season. At a meeting of the organization held at the Y.M.C.A. yesterday evening the following teams filed entries: Royal Oak, James Island, Oaklands, Y.M.C.A., Victoria City, Esquimalt and the Jokers. The Jokers will be the new club in the league.

Thomas Briggs was elected president, while Fred Oliver will act as secretary-treasurer pro tem.

The draw for the opening matches follows: James Island vs. Oaklands, at James Island.

Victoria City vs. Royal Oak, upper grounds, Beacon Hill.

Jokers vs. Y.M.C.A., Central Park, Esquimalt, a bye.

## Leafs and Royals Meet In Series For Canadian Ball Title

Toronto, Ont., Sept. 10.—When the International League baseball schedule is completed there is likely to be a post series between the Toronto "Maple Leafs" and the Montreal "Royals" for the professional baseball championship of Canada. The games will be arranged between the players themselves. No dates have as yet been set.

## INSPECT POCKETS AND WAISTBAND OF KNICKERS

By WILLIAM H. BALDWIN  
In selecting men's knickers it is advisable to look at the waistband and the pockets. The waistband should be put on by hand. Note the stitches at the top of the band. Canvas is used in making the waistband. It should be soft, making the trouser pliable, not stiff. The material of which the knickers are made may be good, but sometimes, unfortunately, the waistband is quickly turned out by machine to save a few cents for the manufacturer.

The pockets of the better knickers are turned, showing a clean pocket, instead of being made with a lock stitch. In which case it is possible, to see the edge of the pocket. Knickers should have large waist and seat outlets to permit widening.

## Favorites In U.S. Pro Tourney Find Going Pretty Hard

Gene Sarazen, Playing Over His Home Course, Carried to Thirty-sixth Hole by Charles Schneider, Young Philadelphia Pro; Horton Smith Stages Comeback to Triumph Over Billy Burke, 2 and 1; Diegel, Defending Champion, Wins Easily; Armour and Farrell Advance.

Flushing, N.Y., Sept. 10.—The second round of match play in the Professional Golfers' Association championship to-day found all the leading favorites still in the running and hoping to stay that way.

Pairings for the second thirty-six-hole match play round indicated on form, at least, the big four in the field, Leo Diegel, Gene Sarazen, Tommy Armour and Johnny Farrell, should advance to the third round.

Diegel, defending champion, was matched against Harold Samson, Burlingame, Calif. Sarazen, who had a close call with Charles Schneider of Philadelphia, yesterday, was pitted against Bob Crowley of Haverhill, Mass. Crowley yesterday defeated Wiffy Cox of Brooklyn 4 and 3. Armour, who rolled up a count of 11 and 10 on Dave Hackney of Lowell, Mass. met his second test in the person of Bob Shave of Cleveland. Farrell, an easy winner over Norman Smith of Yakima, Wash. yesterday, tackled Denny Shute of Columbus, Ohio, to-day.

Other second round pairings: At Watrous, Detroit, vs. Charles Lacey, Philadelphia.

Harry Cooper, Chicago, vs. Al Espinosa, Chicago.

Joe Kirkwood, Philadelphia, vs. Jack Collins, Dayton, Ohio.

Morton Smith, New York, vs. Laurie Ayton, Evanston, Ill.

Sarazen, home pro, was brought to the thirty-sixth hole by Schneider, young Philadelphia pro. Stocky Gene went one down at the thirty-first hole when the courageous Schneider holed a chip shot with his ball thirty yards from the green.

Schneider, however, could not stand properly and his tee shot at the next hole came to rest in some bushes along a fence. He tried to play a left-handed shot out, but did not get very far, and after another had made only slight progress. He conceded the hole, leaving the match squared.

Sarazen then sent a long brassie to the thirty-fourth green and dropped an eight-foot putt for a birdie four, enough to win the hole and, as it turned out, the match.

Horton Smith, another favorite, was one down to Billy Burke, Greenwald, after six holes left to play, but the half-dozen were enough for the tall Missourian. The margin was 2 and 1.

## Cyclonic Captures Washington Derby

Yakima, Wash., Sept. 10.—Cyclonic, owned by Ruth Parton, with Greenwood up, won the third Washington State Fair Derby yesterday, stepping the one and one-eighth miles in 1:35. Billy Gibson, Runnymede, Cullis, can and Randolph, followed Cyclonic in the order named. The race was for a purse of \$500.

## British Net Stars Reach Fourth Round In U.S. Title Play

John Oliff, Frederick Perry, Harold Lee and Lyttleton Rogers Win Matches at Forest Hills; Giant Rogers, After Eliminating Ellsworth Vines, Tackles Bill Tilden To-day; Other Britishers Drawn Against U.S. Youngsters.

By TED VOSBURGH, Associated Press Sports Writer  
Forest Hills, N.Y., Sept. 10.—Bill Tilden, spriest lame man who ever cavorted about a court, stood to-day in the fourth round of the national tennis singles championship with the six-foot seven-inch figure of the biggest player in the game looming dead ahead.

Lyttleton Rogers, gigantic Irish Davis Cup ace, was the man disputing Tilden's progress, but the lanky Philadelphian looked forward to the match with the smiling confidence that has characterized his demeanor since the start of the tournament.

Rogers beat young Ellsworth Vines of Pasadena yesterday, 4-6, 4-6, 6-4, 6-1, 6-4, and Tilden looked even better in mowing down Ed Felsheiman of New York, 61, 6-1, 6-0.

Bill Tilden often limps between points, favoring his famous right leg, but it was noticed when he was covering court he stepped around like the Tilden of ten years ago. Never was he more impressive in pulling off his inimitable running backhand drives than he was against Felsheiman.

Tilden has won three matches in straight sets and lost a total of only nine games, an average of a game a set. Meanwhile some of his most dangerous rivals, notably George Lott and Jean Borotra, have been defeated.

Bryan Grant of Atlanta went down in the third round at the hands of Samuel H. Gilpin, of Philadelphia, 6-2, 4-6, 11-9, 8-6, 6-4.

RYN AND DOGG WIN  
Johnny Van Ryn and Johnny Duggan still survive in Tilden's half of the draw. Both of these young players gave Big Bill a hard fight in the last year's tournament, and indications now are Tilden will have to meet Van Ryn in the quarter-finals, Duggan in the semi-finals and Wilmer Allison in the final.

In the fourth round to-day, Allison meets Frank Shields, Gregory Mangin faces John Oliff in one of three Anglo-American battles; Sidney Wood opposes Gilpin, conqueror of Grant, and Berkeley Bell takes on Clifford Butler, the intercollegiate champion.

As for Tilden's half of the draw, the matches in addition to the Tilden-Rogers affair are: Van Ryn vs. Fred Perry of England, Richard N. Williams vs. Harold G. N. Lee, of England, Duggan vs. Harold G. N. Lee, of England.

## CUNNINGHAM ADVANCES IN NET TOURNEY

Favorite Wins Hard-fought Tussle From Margison in Kingston Street Play

Rallying in the third set after losing a hard-fought second encounter, Gerald Cunningham, one of the favorites for the Kingston Street men's handicap singles championship, advanced to the next round of the competition by defeating G. N. Lee yesterday.

In another good game, K. Leeming sent Steve Jones down to defeat in straight sets.

Yesterday's results and to-day's draw follow:  
Miss Officer and S. Wright, plus 15 1-5, won from Miss Warburton and Warburton, plus 15, 6-4, 6-3.

K. Leeming, plus 1-2 15, won from S. Jones, minus 40, 4-6, 2-6.

G. Cunningham, minus 40 1-2, won from G. Margison, plus 1-2 15, 7-5, 3-6, 6-3.

Miss Severs and Hickey won from Misses K. and B. Harris by default.

THE DRAW  
4.00 p.m.—Severs and Farquhar vs. Tyrrell and Walker.

5.00 p.m.—Walker vs. Schwengers.

5.15 p.m.—Wright vs. Feden, Misses Severs and Hickey vs. Mrs. Baird and Mrs. Jones.

5.45 p.m.—Miss M. Hughes vs. Miss M. Harris, Miss K. Harris vs. Miss Simpson.

## Two More Workouts For "Rep" Rugger

Two more workouts, one at 6.30 o'clock Friday evening at the University School grounds and a final dress rehearsal at 10 o'clock Sunday morning on the Willows ground, will begin the Victoria "rep" team chosen to meet the Japanese team here Wednesday and the following Saturday.

The boys are reported to be in good shape and will rest three days before their match with the fast moving Nipponese.

## Cleveland Buys Pitcher Thomas

Cleveland, Ohio, Sept. 10.—Purchase by the Cleveland Indians of Pay Thomas, right-handed pitcher, for the equivalent of \$25,000 from the Sacramento Club of the Pacific Coast League, was announced yesterday.

Indians will pay \$10,000 cash and two players with a valuation of \$7,500 each. Thomas received a brief trial with the New York Yankees two years ago and since has been one of the outstanding hurlers in the Pacific Coast League circuit.

## CHICAGO MAT STAR TO MEET AL KARASICK

Paul Wilkins to Grapple With Al Karasick in Main Event Here Saturday

Anxious to meet the man who has stayed fifty-nine minutes in the ring with "Dynamite" Gus Sonnenberg, Paul Wilkins, Chicago grappler, will arrive in Victoria Saturday to knot muscles with Al Karasick of Astoria, Ore., in the main event on the wrestling card at the Tillamook gymnasium that evening. Karasick, who went the route here with Bob Kruse on Saturday, has won quite a following among local fans.

Rated as one of the best heavyweights in the game, the Astoria bonewilder is expected to give Wilkins plenty to worry about when they come to grips in the local ring and should put up one of the best exhibitions seen here.

SEMI-WIND UP  
Rocky Brooks, Victoria "iron man," will clash with Jack Forester, trainer of the Vancouver Firemen's baseball team, in the semi-windup.

In the curtain-raiser, Danny Pastore and Watson will come to grips.

Tickets for the event may be secured from Richardson's Cigar Stand and Two Jacks.

## STEIN WILL TRAVEL EAST

Crack Seattle Amateur Golfer Will Seek U.S. Championship at Philadelphia

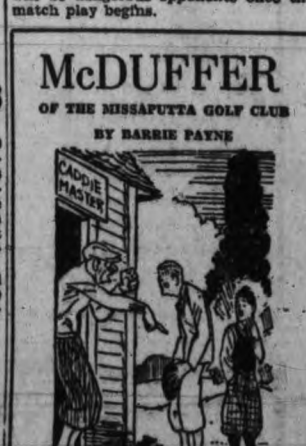

Seattle, Sept. 10.—When the field is let loose for the qualifying round test in the national amateur golf championship at the Merion Cricket Club, Philadelphia, on September 22, the Pacific Northwest will be well represented by Ben Stein, Seattle, and Doc Willing, Don Moe, Frank Dolp and Chandler Egan, all of Portland.

All these Northwest challengers are well known in Victoria, having played here on several occasions. Stein's game has not been up to the standard lately, but he hopes to sharpen it up before the titular chase begins. The Rose City winner is all playing good golf and is expected to be heard from before the champion is crowned. Doc Willing reached the finals last year at Pebble Beach, Cal., only to lose the honors to Harrison Johnson, who will defend his title.

Representing Canada will be Don Carrick and G. Ross Somerville, two of the Dominion's greatest all-around athletes. This pair has won half a dozen Canadian amateur crowns between them during the past seven years, and will be dangerous opponents once the match play begins.

## McDUFFER OF THE MISSISSIPPI GOLF CLUB

BY BARBARA PAYNE  
CADDIE MASTER

"It's too bad that Italian boy got fired for speaking no English. He only needed thirteen words to be a caddy. No, sir, I couldn't find it and here's a ball, but it ain't yours."

# National League Struggle Represents Real "Dog-fight" Free

## Four Top Teams Are Separated By Only Three Games

Brooklyn and New York Make Things Closer and More Interesting by Their Victories Over Chicago and St. Louis; Brooklyn in Virtual Tie With St. Louis With Giants Following Half a Game Behind; Washington, Athletics and Yankees All Win in American League.

Seven games, involving the four contending teams in the National League pennant race, ought to be enough to settle the dispute for good. But the opening clashes in the concurrent crucial series which bring the league-leading Chicago Cubs against the third-place Brooklyn Robins and St. Louis, holder of second place, against New York, possessor of fourth, have only served to increase the tenacity of the race.

The two low clubs were victorious yesterday, and instead of starting to effect a settlement, they placed four clubs within a space of three games in the standing to fight it out. After Brooklyn's 3 to 0 triumph over the Chicago Cubs and New York's 2 to 1 victory over St. Louis yesterday, here is how the four leaders lined up:

Team	W.	L.	Pct.	Play
Chicago	49	47	.509	17
St. Louis	47	49	.489	19
Brooklyn	46	48	.489	19
New York	45	49	.479	21

The league leading Philadelphia Athletics likewise had their troubles in Detroit, and came out on the long end of a 3 to 1 score, only through the home run of their slugging recruit outfielder, Jim Moore.

New York Yankees clung to their slim chance of overtaking the A's by coming out of their slugging hits with gifts from Cleveland pitchers to defeat the Indians, 3 to 6. Five hit batsmen were among the features of the game.

The Chicago White Sox combined the day's biggest collection of hits, nine—seven, with a first-hit-pitching job by Pat Caraway to defeat Boston Red Sox, 10 to 1.

Brooklyn, Sept. 10.—The pitching of Ray Phelps and Babe Herman's thirty-first homer of the season gave the Robins a 3-0 victory over the Chicago Cubs yesterday in the first game of their crucial series. Phelps held the National League champions to five scattered hits, while Herman's homer on the eighth brought in the two runs.

The remaining game on the day's National League schedule served only to extend Cincinnati's latest losing streak to six games, as the Phillies defeated the Red 9 to 6. The American League race once more was unchanged, although Washington's

## LIPTON'S CHALLENGES—NO. 5 New Rules for America's Cup Races Increase Interest in Coming Match

New York, Sept. 10.—It has been ten years since Sir Thomas Lipton has entered a yacht in competition for the America's Cup and now, at eighty, the wealthy merchant-sportsman is preparing for what he has said will be his last attempt.

The races, scheduled to begin on September 15, between the Shamrock V and one of the four defending candidates will be sailed under different conditions than ever before in international competition. The match will be for four out of seven races, instead of three out of five, and thus should provide a longer series and a fairer test. The course is to be laid off Newport, R.I., where a good breeze can be expected, instead of off Sandy Hook, where matches previously have been held. Comparatively few persons will be able to watch the races at Newport, but the very absence of excursion boats will be of benefit to the competitors.

**IMPORTANT FEATURE**  
Most important of the new conditions are the rules under which the boats have been built. Lipton's Royal Ulster Yacht Club and the New York Yacht Club agreed to build according to the maximum specifications of the Class J Universal Rule. This means that neither boat will be granted any time handicap, and will make for more exciting races.

Sir Thomas has intimated that his Shamrock will be most efficient in light weather. She is shorter over all than any of the American candidates, though slightly longer on the waterline than Enterprise, smallest of the craft built for defense. She is heavier than Enterprise, too—weighing 135 tons to the other's 128½.

On the other hand, Shamrock has a sharp prow to cut the ocean swell off Newport, and a hull that is rounded enough to indicate that she can ride on a stiff breeze. Her draft, too, is about the equal of the American boats. Like the others of her famous dynasty, Shamrock is green-bullied. She has a white stripe, or boot-top, at the waterline, and a gold stripe around her just below the deck.

Sir Thomas rarely sails aboard her, and will not be on her in the races. He is content to put up the money—his five challenges have cost him about \$50,000—and watch the thrilling battle for supremacy of the seas.

TERRY TOPS LEAGUE

The first two men in the Big Six and the last, namely Bill Terry, Babe Herman and Babe Ruth, gained on their rivals yesterday by turning in some heavy-hitting feats.

Terry, the leader, clouted three hits in four times at bat to register the day's biggest gain, three points. His mark went to 465. Ruth got just as far, although his three hits were made in five trips to the plate. Herman walloped two out of four and sent his mark to 388. Lou Gehrig connected only once in five attempts and dropped his leading American League mark two points. Chuck Klein continued his downward progress as he hit only once in four attempts, and remained behind Al Simmons, who had the same results for his day's labors.

Double Figures Posted in Every Race Yesterday at Colwood Track; Carlisle Comes Home in Second to Return \$27.85 for Longest Price of Day; Clarimonde Hope and Mary Dear Pay Nice Place Prices.

## Outsiders Enjoy Good Day To Pay Handsome Prices

Double Figures Posted in Every Race Yesterday at Colwood Track; Carlisle Comes Home in Second to Return \$27.85 for Longest Price of Day; Clarimonde Hope and Mary Dear Pay Nice Place Prices.

The punters were well beaten in most of the events at Colwood track yesterday, and double figures were posted on the mutual boards more often than not. With several tough fields to pick from the public managed to get most of its money down on the wrong horses in a lot of races and, though no startling prices were recorded, the returns were substantial.

Baggage Behave, winner of the first; Carlisle in the second, Jim Rogan and Mary Dear in the third, Clarimonde Hope in the fifth, Swift Cop in the sixth and Fourteen Sixty in the seventh all posted double figures.

A thrilling finish thrilled the fans in the fourth, when Salty, the favorite, managed to squeeze through to get the call in the last few strides, while inches separated the second and third horses.

**SHOWS IMPROVEMENT**  
Showing a decided improvement in form, W. Bishop's Baggage Behave galloped away with the first in good style, winning by a length and a half from Viking, the place horse. James C. was third. The winner, ridden by W. Robertson, paid \$13.70 straight. Queen of Progress, the favorite, after a slow start finished with a fast rush but was unable to catch the leaders in the stretch. Tee Hee, second choice, set the pace from the break but failed to make the final drive and finished sixth.

**LONGSHOT HOME**  
Coming from behind to stage a thrilling duel in the stretch with Darrel J. Carlisle, a 13-to-1 shot, capped the second, returning nose baggers \$27.85 for each placehorse. Anderson rode the winner home a length and a half to the good. Darrel J. got the place and Patriarch the show. Prince Taro, installed a slight favorite in a tough field, was never better than seventh. Patriarch was second choice.

**JIM ROGAN WINS**  
Taking the lead on the last turn, Jim Rogan, an 8-to-1 shot, finished gamely to get the third, paying \$17.50 straight. Mary Dear, another outsider, was second and clicked the mutuels for \$20.95 in the place slot. Silk Train was third. Smart Horse, Cae Waler and Oregon Mist were all out of the money, although Smart Horse was only beaten half a length for the show. Macushia II, after a quiet break which carried her to the top, stopped badly when headed, and finished ninth.

**CLOSE FINISH**  
In a thrilling finish which brought the first three horses to the wire head and head, Salty, the favorite, capped the honors in the fourth, getting the call by a neck from Sir Turpin, which, in turn, was a head in front of Selma Barbree for the place. Sir Turpin set the pace from the break, but was forced to yield to the winner in the stretch. The rest of the field was closely bunched behind the first three at the wire.

Going into the lead from the start, Coeur de Lion, with Joe DeFord aboard, was on top all the way in the fifth and finished with a margin of one length over Clarimonde Hope, a rank outsider. The winner was favorite and paid only \$5.70 but Clarimonde Hope slapped the registers for \$21.60 to place. Sweet Street, second choice in the betting, got the show easily.

**SWIFT COP IS FIRST**  
Swift Cop, under good handling by Jockey Schmitz, galloped home winner by a length and a half in the sixth, with Dora Somers second and Sun Fash third. Swift Cop was a seven to one shot and returned \$15.03 straight. Sun Fash, which was yesterday's big surprise, gave the fans something to think about by jumping into the lead from the start but he was

unable to hold the pace when caught by the winner. Gold Caps, favorite, tired after reaching the head of the stretch in fourth position.

Given the benefit of a fine ride by Jockey Craigmyle, Fourteen Sixty managed to cop first place in the seventh in a thrilling stretch drive with the favorite, Will Ward. Fourteen Sixty was in a good position turning into the stretch, and came on with a rush. Shadow Spark was third.

Riding honors for the first two days have been pretty evenly divided, with

unable to hold the pace when caught by the winner. Gold Caps, favorite, tired after reaching the head of the stretch in fourth position.

Given the benefit of a fine ride by Jockey Craigmyle, Fourteen Sixty managed to cop first place in the seventh in a thrilling stretch drive with the favorite, Will Ward. Fourteen Sixty was in a good position turning into the stretch, and came on with a rush. Shadow Spark was third.

practically all the jockeys getting an equal share of money-winning mounts.

Willie Robertson has taken the lead as far as winners are concerned with three firsts out of eleven mounts. He has also piloted three show horses, but has yet to be aboard a place horse.

Palmer has placed six horses in the money out of fourteen rides, but has only brought down one winning mount. His other money mounts consist of three seconds and two thirds.

Out of ten mounts Swift has put two winners under the barrier, while Fetic boasts one winner, and three seconds out of ten mounts.

Local fans were sorry to witness the breakdown of In The Eye yesterday during the running of the third race. Just after rounding the first turn from the barrier the horse pulled up lame and Jockey Swift immediately dismounted. It could clearly be seen something serious was wrong as the horse walked with a decided limp. Upon investigation it was found the six-year-old gelding had pulled a tendon and the injured member could plainly be seen. It is more than likely the horse will have to be destroyed, although there is the chance it will recover.

In The Eye has always been popular on local tracks, especially this season, which has been one of its most successful.

Sun Fash, P. F. Foreman's gelding, which copped the third race yesterday to return \$61.55, certainly got plenty of breaks. Taking advantage of a good start, the horse hugged the rail all the way and on the final turn increased his lead when the remainder of the field went extremely wide. Sun Fash almost staggered to the wire, but he was not caught.

## Rugby Again Takes Stage

By JIMMY THOMPSON

MIKE RODDEN  
COACH OF THE HAMILTON TIGERS

The rugby season is well on its way again and "Old Man Gridiron" will once again reign supreme on sporting pages. Once again he will rise to be idolized by thousands of enthusiastic fans. And here is one man whose name will be on the tongues of all rugby followers. He is Mike Rodden, the famous coach of the great Hamilton Tigers, Dominion champions. He is a man who has built up a squad of brawn and muscle that no team in Canada can compare with. But this season that team will not be the same machine as last year, and naturally the question is what will the great Mike Rodden do? Will he again mould together an outfit that will battle their way to the rugby supremacy of Canada. This break up of the old Tiger outfit will prove a great thing for Canadian rugby. It will again encourage that element of competition that seemed lacking in last season's campaign. Not only this, the color, which after all is the gleaming card of a rugby team, did not seem to exist in the Hamilton Tigers. They were too perfectly trained. This tour of the west which they are now on seems to be a wise move on somebody's part to provide an extra training season and unless something goes wrong, these Tigers will again be down to a fighting shape before the rest of the teams get off the starting line.

## PROVINCIAL W.C.T.U. PLAN ANNUAL RALLY

Sessions to Be Held in Vancouver Commencing Monday Next

The Women's Christian Temperance Union of British Columbia will hold its forty-seventh annual provincial convention from September 15 to 18 in Chown United Church, Vancouver, when many delegates from Victoria will be in attendance.

Mrs. J. A. Gillespie will preside at the sessions and the report of the executive committee and appointment of various committees will be part of the first morning's meeting, followed by reports of corresponding secretary, treasurer, "Y" and L.T.L. secretaries, and Victoria, Okanagan and Vancouver districts. Departmental reports will be given and luncheon served at noon.

The president's address will be given on Tuesday afternoon, followed by a school of methods and further departmental reports. In the evening a playlet, "The Medicine Shelf," will be given by members of L.T.L. and an address by Rev. Dr. Willard Brewster.

**ELECTION OF OFFICERS**

Election of officers will take place on Wednesday morning, and completion of departmental reports. Resolutions will be dealt with at the afternoon meeting, followed by a motor drive arranged by Vancouver district, and tea at the home of Mrs. G. G. McGeer, 4812 Belmont Avenue. That evening there will be a grand gold medal elocution and senior silver medal vocal contest.

The plan of work, memorial and communion services will be part of Thursday morning's business, and for the afternoon there is scheduled resolutions, appointment of superintendents and provincial home and delegates to world convention, reports of budget and courtesy committees, invitation for next convention and unfinished business.

At the "Y" supper Dean M. L. Bolter will give an address and the past executive meeting will be held at 8 p.m.

Delegates going over from Victoria are Mrs. M. C. Wilkinson, Mrs. F. W. Loring, Mrs. T. Burton, Mrs. J. N. Holland, Mrs. L. Lovatt, Mrs. W. Saunders, and Mrs. G. J. Jowley.

## SAANICH WOMAN IS HONORED

Mrs. Frank Osborn Presented by Conservatives with Diamond Brooch

Mrs. Frank Osborn, first vice-president of the Saanich Central Conservative Association, was presented with a handsome diamond brooch in recognition of her long and devoted services to the cause at yesterday evening's social and dance held by the association at the headquarters, Campbell Building, Mrs. S. P. Tolmie, at the request of W. O. Wallace, the president, made the presentation to Mrs. Osborn on behalf of the association, complimenting her upon untiring and zealous work.

Mrs. W. O. Wallace, wife of the president, was presented with a bouquet by Mrs. Baker on behalf of the association.

Among the guests present were: M.P.P. of Finance, J. W. Beatty, M.P.P.; Mr. Wendy Tolmie, Miss Cody Johnson and others.

At the business meeting which preceded the social, the president reminded the present of the annual meeting of the association, to be held next month, and urged the ward executives to hold their annual meeting two weeks ahead, so that all wards may have sufficient representatives at the meeting, when officers will be elected.

An American husband is referred, even if he makes only \$40 a week, in the opinion of Mrs. Dorothy Snyder Cochrane Caffray, above, wealthy divorced wife of Prince Nicholas Karageorgievitch, cousin of King Alexander of Yugoslavia. She has just married Bill Caffray, Reno, Nev., garage mechanic.

## Educationist on Coast

Mr. and Mrs. Frank W. Halbus of Toronto are visiting Seattle to-day after a vacation of several weeks in British Columbia, most of which was spent in Victoria. They left this city yesterday afternoon for the Sound city, from which point they plan to return to Vancouver and journey across Canada, with several stops en route, arriving in Toronto in time for the opening of the fall term of the College of Education of the University of Toronto, of the faculty of which well-known institution Mr. Halbus is a member.

During his stay on the British Columbia coast Mr. Halbus took opportunity to become acquainted with a number of the leading educationists of the Province.

With Victoria as a base, Mr. and Mrs. Halbus toured Vancouver Island. Both are returning to the Ontario capital greatly impressed with the attractions of British Columbia, particularly this island, as a tourist and residential region.

## SOCIAL ITEMS

Mrs. Skrimshire of Shawinigan Lake is spending a few days in Victoria as the guest of friends.

Captain W. Bell Belmont Avenue, returned to Victoria last evening from a trip up the West Coast.

Mrs. M. C. Gilmour, Fort Street, will leave shortly for Winnipeg, where she will make her future home.

Mrs. Gordon Reid, of San Francisco, is visiting in Victoria as the guest of her parents, Mr. and Mrs. Middleton, Harrison Street.

Mr. and Mrs. Gordon Campbell, of Port Alberni, are visiting in Victoria at Broadbent.

Mrs. D. A. Cooper and Mrs. G. C. Anderson, of Portland, are among the guests from Oregon in Victoria, who are guests at The Angela.

Mrs. W. J. S. Waugh, Cambridge Street, has returned to her home in Victoria from Seattle, where she has been spending the last few weeks as the guest of friends.

Mrs. K. C. Allen, "Little Oaks," The Upland, returned to her home in Victoria this afternoon from Winnipeg, where she has been spending the last few weeks.

Mr. and Mrs. Jamie Cameron, who recently returned after spending the last few months at their summer camp, have removed from the Gorge Road to Linden Avenue.

Mrs. R. W. Hoyt, Miss Kathleen Hoyt and Miss M. Baines, of Portland, after spending a few days in Victoria as guests at The Angela, left yesterday for their home in Oregon.

Mr. and Mrs. A. D. Macfarlane, St. Ann Street, have returned to their home in Victoria from Shawinigan Lake, where they have been spending the summer months.

Mr. and Mrs. Ross Lort, of Vancouver, came over from the mainland yesterday to spend a few days here as the guests of Mrs. Lort's parents, Mr. and Mrs. W. G. Rolston, Menzies Street.

Mrs. E. P. Laycock, wife of the Archdeacon of Columbia, received a cable yesterday conveying the sad news of the death of her younger sister, Mrs. Edward Hayward of Monkton Combe School, Bath, England.

Commander and Mrs. H. J. Cavendish, who have been spending the last month at Hatley Park as the guests of Mrs. Cavendish's mother, Mrs. Margaret Watson, when Len Angus, a Cornwell, Jean Lennox, Kay Wilson, Mollie Blagwood, Phyllis Pender, Pat Hamerley, Sheila McBride, Kay Hall, Margaret Milburn of Los Angeles, Dallas Homer Dixon, Beatrice Langley, June Herrin, Helen Campbell, Viva Brown, Eleanor Heisterman, Betty Bechtel, Eleanor Jordan, Marianne Fraser, Helen Harris, Pat Brown, Nan Eve, Pat McConnan, Marjory Merrick, Madeline Egan and Eileen Toulmin, and Messrs. Ken and Bill Boorman, Charles and John Heisterman, Jack Langley, Bob Driscoll, Bryce Evans, Bill and Graham Lawson, Logan Mayhew, Bob Miller, Robert Smith, "Chuck" Copeland, Bom Wilson, Richard Angus, Roland Horsey, Vernon Blagwood, Austin Goward, Stanley Williams and Jack Bryden.

Metropolitan Ladies' Aid—At the recent meeting of the Metropolitan Ladies' Aid Society preparations were made for the annual sale to be held on November 15. Mrs. Fretterley was welcomed as a new member. During the summer the society has been holding prayer meetings. The monthly meetings are held on the first Friday in each month, when new members will be welcomed.

Centennial Silver Tea—The Women's Guild of the Centennial United Church will hold a silver tea on Friday afternoon from 3 till 5 o'clock at the home of Mrs. Paul Green, 1328 Vimy Street. A musical programme has been arranged. Would-be patrons should take the No. 6 or 7 car to Moss Street and walk one block north.

Women's Guild—The Women's Guild of St. Andrew's Presbyterian Church met on Monday at the home of Mrs. M. R. Fern, Oscar Street, when plans were made for a rummage sale to be held on Wednesday, October 1. At the close of the meeting, the hostess served dainty refreshments.

## BRITAIN'S NEED REVIVAL BUT NOT RESURRECTION

B. C. Nicholas Declares That Old Country "Cannot Die"

Tells Women's Canadian Club Unemployment No Greater Than in United States

"Although Great Britain is going through a time of trade depression, and has many complex problems of its own, we must remember that a country of 45,000,000 people with such fine traditions and unconquerable spirit may need revival, but it cannot need resurrection because it cannot die as long as its people retain their character and spirit." This was one of the many interesting observations on conditions in Great Britain made by B. C. Nicholas, managing editor of The Victoria Daily Times, in the course of an interesting address before the Women's Canadian Club yesterday afternoon.

"Some personalities of the Imperial Press Conference" was the subject of the address, during which the speaker sketched the outstanding characteristics of the leading delegates, who came from all parts of the world, and told something of the notable figures in Great Britain whom the delegates met in the course of their deliberations and during the round of entertainment arranged in their honor.

**YOUTHFUL STATEMEN**

Rt. Hon. Ramsay MacDonald, David Lloyd George and Stanley Baldwin, who addressed the conference, were referred to, the speaker observing that Mr. Baldwin's address had most favorably impressed the delegates. The youthfulness of these British statesmen, in spite of the heavy burdens they had carried, was remarkable, said Mr. Nicholas, and he humorously attributed it to "the roast beef of old England," or perhaps to the same way in which these statesmen shed their responsibilities during quiet week-ends in the country.

The speaker paid a tribute to Major John Astor, the chairman of the conference, for his high Imperial sense of duty, and also touched briefly upon Lord Burnham, Lord Beaverbrook, Ralph Blumenfeld, Lord Riddell, owner of The News of the World, Sir Bruce, Lord Grey, one-time British Foreign Secretary, and others.

**MEMORIAL TO WOLFE**

The recent unveiling by the Marquis de Montcalm of a monument in England to General James Wolfe, who defeated his ancestor in the historic battle on the heights of Quebec, is significant of the consolidation of the French and British interests in Canada, and suggests that it is a very formidable conflict which cannot be solved by wise and sagacious statesmanship if approached in the right spirit, according to Mr. Nicholas. He also expressed the hope that the initiative displayed by the late Fred Wade, former Agent-General for British Columbia in London, in raising the fund for the Wolfe statue, might be emulated and a fund raised in Canada for the erection of a statue to Wolfe's adversary, the Marquis de Montcalm, in France, to be unveiled by a descendant of Wolfe.

**UNEMPLOYMENT**

Touching upon conditions in Great Britain, Mr. Nicholas observed that, in proportion to population, unemployment there is no worse than that in the United States. He was optimistic as to the outcome of the present depression, declaring that a country of 45,000,000 people of such fine traditions and character may need revival but cannot need resurrection because it could never die as long as its people retained their character and spirit.

He also predicted that Canada, within the lifetime of some of the delegates now playing in the streets, would be the dominant partner in the British Commonwealth of Nations.

Mrs. P. B. Scourrah predicted and Mrs. H. P. Crowe tendered the thanks of the gathering to the speaker.

Miss Jona Jones, accompanied by Miss Maguina Daniels, was the soloist, her numbers being "Curran's" "Dawn" and "Kate Coates' "The Strong Box."

## ESQUIMALT W.I. IS BUSY

Many Reports Heard and Plans Made at Yesterday's Meeting

The Esquimalt Women's Institute had a busy agenda for its monthly meeting held yesterday evening in the Parish Hall with Mrs. M. Cave, the president, in the chair, and twenty-six members present. The meeting passed a standing vote of sympathy to Mrs. B. Jacklin, Sr., in the death of her husband.

Mrs. Isabelter, reporting for the school committee, exhibited the medal given annually by the Institute to the Esquimalt student obtaining the highest marks in the entrance examination and which is to be presented tomorrow to Molly Mitchell. Mrs. W. H. Booth gave a report of the recent exhibition, which had been a great success and from every standpoint.

Mrs. Wiles was appointed the official delegate and Mrs. Brooker the Institute delegate to the district convention on October 22 and 23. Plans were made to hold a jam shower for the Solarium at the next meeting. Mrs. Saddler reported on the recent demonstration by a corseteer. Three beautiful anapadons grown from seed given by the Department of Agriculture were much admired. Mrs. Holligan reported that Mrs. Appleby was making favorable progress after her recent illness.

Arrangements were made for the members to visit the printing works at the Parliament Buildings on Wednesday, September 17. At the close of the meeting, Madam Cave, Booth, Johnson and Kelly were hostesses and served refreshments.

## and Remember

Carnation Milk is simply the best of whole milk, evaporated to double creaminess and sterilized for safekeeping. You will prefer it for all cooking. And you'll rejoice at the way it saves on cream and butter.

## Community Fair Planned by W.I. Strawberry Vale

Plans for a community fair to be held at the Institute Hall on Wednesday, October 1 commencing at 6 p.m., were made at the monthly meeting of Strawberry Vale Women's Institute held at the hall on Wilkinson Road on Tuesday afternoon.

Mrs. Austin and Mrs. Humphries agreed to convene the dispensing of refreshments, Mrs. Foster ice cream and candy, Mrs. Huntington, hot dogs; Mrs. Nott will superintend the operating of a spinning wheel for children.

Humphries, house-hoosie; Mr. Jones, a nail driving competition for ladies, and a great deal of fun is anticipated in watching the efforts of the men in a hat-making and trimming competition which will be conducted by Mrs. Williams. Opportunity will be given to those who are curious about the future of the world to the future of the world to the future of the world.

Another request has been made for a wool filled comforter to be made, which brings the number up to four since August. The members take great pleasure in these quilting "bees" as apart from the fact of accomplishing a splendid piece of work, a fine social time is enjoyed.

A series of card parties will be held in the hall beginning on the first week in October when the conveners hope for record attendance. Refreshments will be served and good prizes given. The treasurer was instructed to send \$5. to the Balaclava Relief Fund. Mrs. Humphries served delicious refreshments at the close of the meeting.

## When do You Need a Tonic?

When the system is "run down". When there is lack of appetite, a disinclination to work, fatigue from slight exertion, and an absence of "zip."

A tonic which will put new life into you; give you an appetite, and brace you up for the daily task, is "Fellows' Syrup of Hypophosphites."

Recommended by doctors throughout the world for  
**Loss of Appetite, Nervous Debility, Retarded Convalescence, Anemia, Malnutrition, Bronchial Troubles.**

Sold by all druggists. In original large and small bottles only. Refuse imitations. Insist on the genuine.

## Perfect Sight—Without Glasses

Practically every known eye trouble—even partial blindness—has been benefited and entirely cured by a new technique. Far sight, near sight, astigmatism, cross-eyes, squint, cataract—all have been successfully treated without medicine, operation or optical aids of any kind. If you suffer from any form of eye trouble call at once and learn how you can have better eyesight, better health, a richer life—unhindered by glasses. It may mean so much to you.

## WOULD PRESERVE INDIVIDUALITY OF IMMIGRANTS

Foreign-born Clergy Give Views at Women's Luncheon in Toronto

Toronto, Sept. 10.—The importance of women as ambassadors for peace in the world was emphasized at the international luncheon held by the National Council of Women in the Women's building. The guest speakers were ministers representing many nationalities resident in Toronto.

"If there is a great man with an international heart," said Rev. Mr. Onatelli of the Italian church, "surely there is a lady to push him on."

"This is the age and day of women in the world," declared Canon Gould. "It is their great opportunity."

The gathering was one destined to promote goodwill along the different nationalities resident in Canada and was arranged by the citizenship committee of the National Council of Women of which Mrs. W. L. McFarland is convener.

**PLEA FOR OLD-WORLD CRAFTS**  
Rev. L. Kovacs of the Hungarian church made a plea for the preservation of the arts and crafts of the old land in the new. "There are certain things which these people have which we should preserve in Canada, expressions of the soul which we should not eliminate. We do not wish to eliminate the color of the flowers or the various foods of the nations, because the result would be hash."

"Nor would we eliminate their music or the result would be ragtime. Even if these people neglect such arts themselves it should be the duty of Canadians to see that they are preserved for the good of Canada," he said.

Father Minehan of the Roman Catholic church also urged the preservation of the individuality of these nationalities. The big danger in massed production was the losing of this individuality, he warned.

**NOT MERELY HEWERS OF WOOD**  
Dr. McNamara furthered his thought when he said: "We cannot expect these people who come from overseas to Canada to be merely hewers of wood and drawers of water. They have their own arts and crafts which we should absorb, weaving them into the warp and woof of our Canadian life."

Rev. J. I. MacKay pointed out that the time had come when Canada actually needed the help of the newcomer more than the newcomer needed the help which Canada could give.

**MUTUAL TOLERANCE**  
Rabbi Sacks urged both Canadians and the newcomers not only to tolerate each other, but to give each other

mutual help. It was service to Canada which these new Canadians should be ready to give and in return they should get service from Canadians.

Other speakers of the occasion were the Rev. S. Bala, minister of the Hungarians, who pointed out the beauties of Hungarian music in contrast to Canadian jazz, and urged Canada to have patience with the newcomer because he was capable of great things if given the opportunity.

Other speakers included Father Piss of the Greek Orthodox Russian church, the Rev. Paul Crath of the Ukrainian church, Dr. T. A. Moore, Rev. Athanasios, minister to the Bulgarians; Father Aud, minister to the Assyrians; Mrs. Jersak of the Polish Baptist, Rev. W. Leeman of the Finnish United Church.

## NORMAL SCHOOL OPENS DOORS TO LARGER CLASSES

Student Body This Year Numbers 162; Newcomers Welcomed at Institution

The largest class in the last three years, numbering 162 students, was welcomed to the Provincial Normal School here this morning by members of the staff at the annual opening ceremonies. Gathering in the auditorium, the prospective teachers heard words of cheer from D. L. MacLaurin and other members of the staff, who explained to them the new field of endeavor they were entering.

Mr. MacLaurin also enjoined the new pupils to treat their work with every seriousness, reminding them that when they graduated the moulding of the lives of young school children would be entrusted to their care.

Other members of the staff also greeted the assembly, telling it of the various activities of the school and wishing the newcomers every success in their courses.

**WELCOMED BACK**  
C. V. Wood, former teacher at the local institution, returned this morning following a prolonged absence during which he has conducted a tour of Europe to gather material for extramural work. He was greeted with much enthusiasm by his former colleagues. Harold Campbell, a new addition to the staff, was also welcomed.

This year the registration is far above that of 1929, when the total enrollment was 181. Of the 162 now registered, fifty-one are men. This figure is a great increase over any in the books for the last three years.

Ninety-four students, thirty-one men and sixty-three women, are enrolled as first-class pupils, while twenty men and forty-eight women are in the second-class list.

Eight students are finishing off their University of British Columbia educational courses and will leave the school at Christmas with their certificates. Six repeaters are also included in the student body.

During this morning's exercises only one registered pupil was absent. Immediately after their welcome, the students sat for tests to determine their standings.

Mrs. Lindsay will be glad to answer all questions pertaining to babies and children. A stamp and self-addressed envelope forwarded to this office will bring a personal reply.

## CURIOSITY IN CHILD CANNOT BE STAMPED OUT

In giving all kinds of advice the difficulty is to make it definite enough to help mothers with any troublesome situation. In behavior difficulties this is far more complicated than in saying what and how much of specific foods the child needs daily. Each home and each child differ. The only child has an entirely different environment from the child who is a member of a large family. These are vastly different situations, and the result is different behavior. How can anyone tell a mother exactly how to act in every situation which may possibly arise in such a variety of environments?

Mrs. V. T. is struggling with the sometimes annoying behavior of the small child learning how to live in his own household. "I read so much about the desirability of not slapping small children," she says, "but what on earth am I to do when Sally Ann goes up to the living room table and, with one mischievous eye on me, pulls at the cover until it comes off with everything on it? She tries this on the dining tablecloth when it is set for dinner, too. I have said 'no' in various tones of voice (usually angry) and with little or no success. I am sorely tempted to slap her fat little hands and see what would happen. So far I have not. Can you tell me what to do?"

**SALLY ANN'S ANGLE**  
Try to think of the situation from Sally Ann's angle. A table cover hanging above one is a natural temptation

to pull. She can't see the objects above her, but if they fly off and you scream, it is such exciting sport you can't wonder that she wants it to happen again. Until she is old enough to see what is on the table, remove all objects that would suffer by falling on the floor. As for the dining-room table, teach her how to put the dishes on it and you'll find she won't have the slightest desire to pull the covers off. Put a small chair by the table and teach her how to put the silver on it. You'll be amazed at how readily she'll learn this and then you can let her move her chair to wherever you keep the silver and put it back after it is washed.

Mothers are so intent upon teaching a child not to handle things that their whole day is taken up with trying to prevent undesirable things happening. Instead, devote that same amount of energy to teaching the child how to handle things and you end all this misconduct.

The child's actions are sometimes unthinking and therefore destructive, but they won't be if he has increasing opportunities to handle the things about the house with the same care displayed by adults. We have a leaflet on "How to Deal With the Small Child's Curiosity," which you may have for the usual self-addressed, stamped envelope. This helps the mother make use of the educational value of this curiosity instead of trying to stamp it out by punishment, an impossible thing to do.

To-morrow: "Daily Airing Is An Important Ceremony."

**Carne Rebekah Lodge**—The regular meeting of Carne Rebekah Lodge No. 45 will be held on Friday at 7:30 o'clock in the Oddfellows' Hall, after which a benefit bridge and whist drive will be held, players to bring cards and score pads. Further information may be obtained at 4367R or 603R.

**Victoria Ladies' Choir**—The Victoria Ladies' Choir will hold their first rehearsal of the season at the New Thought Temple Hall on Tuesday evening next, when a full attendance is requested. The choir takes much pleasure in announcing the appointment of Miss Olive Heale, L.A.B., to the position of accompanist.

## Chapter Plans Arabian Nights Dance for Funds

Preliminary plans for an "Arabian Nights" dance to be held in October were made at the monthly meeting of H.M.S. Resolution Chapter, I.O.D.E. held on Tuesday evening at the home of Mrs. C. H. O'Halloran. Mrs. R. D. Harvey, the regent, presided.

A standing vote of sympathy was passed to the bereaved relatives of the late Mrs. P. M. Sherry. Mrs. O. C. McCulloch was welcomed back after her sojourn in England.

The chapter has sent three layettes and a cot, also three nightgowns for mothers, together with magazines, to Miss Roberts, the nurse in charge of a Red Cross outpost in northern British Columbia. The chapter also decided to undertake a collection of silver paper, twenty pounds of which will keep a child at the sanatorium for one year.

**Chapter Met.**—The Commodore Broughton Chapter I.O.D.E. held its first fall meeting last evening at headquarters, the regent, Mrs. Otto Weller, presiding. The secretary, Miss Lora Blake, gave a report on the secondary educational work and other activities of the chapter. Extensive plans for the winter were discussed.

## BURNS CLUB TOLD OF TRIP THROUGH B.C. BY J. HOSIE

President Tells Gathering of Historical Discoveries During Motor Tour

In a discursive, informal manner, John Hosie, president of the Victoria Burns Club, addressed the first fall meeting in the Chamber of Commerce yesterday evening. After noting that the increase in membership in the club would soon raise its list to the maximum 500, Mr. Hosie spoke of his recent trip through Hope, Barkerville, Kamloops, the Okanagan, Penticton, Princeton, the Cariboo, Spences Bridge and many other towns in the interior which he visited on his 1,800-mile motor tour.

He announced that he had made several interesting discoveries in the way of historical lore regarding the province, saying that among other things he had secured interesting data relating to the wanderings of Simon Fraser.

Tales he had heard at various country gatherings were related by Mr. Hosie and enjoyed by his hearers. As an early resident of the Cariboo, Mrs. R. B. McKicking complimented Mr. Hosie on his valuable research work in the interior.

Reports on new Scottish literary work were given by the special committee of the club with special mention being made to the novel "Justice of the Peace" written by a Scot residing in British Columbia.

Dr. A. O. Macrae moved a hearty vote of thanks to the president and the other entertainers of the evening, who included J. Smith, Patterson, Miss Eileen Bennett and Mr. Rhodes, vocalists, and George Bowden, Miss Clair, Miss Foye and Miss Jewell, who gave some attractive dances with Miss Sherwood acting as accompanist.

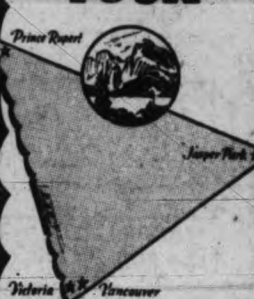

A number of interesting Scottish books were donated to the club library. The programme for the ensuing winter months, and a number of excellent speakers are promised. The next meeting, it was announced, will be held on the second Tuesday in October.

## Jordan River

The home of Mrs. Austin Kirby, Jordan River, was the scene of a children's party Saturday afternoon to celebrate Bonnie's first birthday. After tea was served each child received from a large decorated cake a small souvenir of the occasion. The guests were: Mrs. Vogel, Miss Ritchie, Mrs. Campbell, Marguerite and David, Mrs. Rough, Beverly and Peter, Mrs. Johnston, Beryl and Lois, Georgina, Violet and Lucille Turcotte, Phyllis Cox, Clara Kingery and Adelaide Walker.

Mrs. E. E. Walters and Miss Walters of Vancouver are visitors at Jordan River for a week.

## Millers See Better Times

Montreal, Sept. 10.—Predictions of better times ahead were made yesterday at the annual meeting of the Canadian National Millers' Association here.

"Our wheat prices are again on a world parity, hence the return of our export trade appears to be assured," said Charles Hutz, retiring chairman, who presided. "We may expect at least a normal, if not an excellent year."

W. A. Black, Montreal, was elected new chairman of the board of directors.

## HORTICULTURAL SOCIETY GROWS

Membership Jumps Nearly 200 in Year, Secretary Reports

Dr. A. V. Price Is New President, Succeeding Fred Landsberg

Stepping into an office formerly filled by Fred Landsberg, Dr. A. V. Price last night was elected president of the Victoria Horticultural Society. H. Whitehead was named vice-president and F. E. Boulter, was re-elected secretary-treasurer.

The annual meeting was held in the City Hall with over 100 members attending. An increase in membership from 118 to 304 was shown in the secretary's report which was heartily approved. Activities of the organization had met with considerable success both financially and otherwise. Mr. Boulter said, mentioning particularly the annual show in the Shrine Hall and the garden competition.

A warm vote of thanks was tendered to Mr. Landsberg, the retiring president, and also to Mr. Boulter, for the splendid manner in which they had forwarded the interests of the society during the year.

## HINCHLIFFE BACK FROM ENGLAND

Minister of Education Studies Problems of Old Country

Hon. Joshua Hinchliffe, Minister of Education, is back in Victoria after an extended visit to the United Kingdom, accompanied by Mrs. Hinchliffe and family. In England the minister studied features of the educational system there and also acquired into the treatment received by Canadian teachers and university students who go to England under the teachers' exchange plan.

Educational authorities in the United Kingdom at the moment are awaiting action on the report of the Hadow Commission, which recommended a number of changes, including that of increasing the age at which pupils leave school. The results of the commission are being very carefully analyzed and some of the ideas are likely to be made in Old Country schools as a result, Mr. Hinchliffe believes.

Many of the problems faced in England and Scotland are similar to those faced in Canada, Mr. Hinchliffe says, and he was interested in studying them.

## McIntosh Reds Reach Coast; Egg Prices Up

Vancouver, Sept. 10.—An initial shipment of McIntosh Red apples is now in from Mainland points and is wholesaling at \$2.00 for the household pack. The Department of Agriculture announced today. The coloring is poor. Wealthy and Gravensteins are unchanged in price. Supplies from local sources have been comparatively light this year and as a result the demand for the upper country fruit has been satisfactory.

Reaches are yet on an import basis and prices are running from \$1.50 to \$1.85 per box. Some retailers are featuring peaches at a much lower figure, but their business is on job lots which must be moved at a sacrifice.

There is a part carlot of Okanagan Italian grapes on the market, the first shipment this season of any consequence. Washington prunes are also obtainable. The demand for this fruit is rather antelopes now have the market and imports are negligible. There is no change in the price which runs between \$3.00 and \$3.75 per standard crate, according to its quality. Okanagan onions now control the market, shutting out supplies from Walla Walla. Local onions are also on the market at \$1.75 as against \$2.25 on the dry belt stock.

Egg prices have advanced about 3 cents during the week. There is no movement from storage as yet with the exception on contract deliveries. Feed prices continue to decline.

### POPULATION OF TORONTO

Toronto, Sept. 10.—The population of Toronto increased 15,225 within the last year, according to the assessment commissioner's report. The total population of Toronto is 621,598.

## Inner Cleanliness is just as necessary as your Bath and Cosmetics

Don't envy youthful, glowing skin. You, too, may quickly enjoy that sought for aid to charm.

Clear, beautiful skin depends upon internal cleanliness.

Clogged, poorly functioning digestive tracts cause unsightly skin blemishes—sallowiness—dull eyes—sagging facial muscles.

Cosmetics can only hide the unhealthy condition.

To look well and be well, one must be cleansed internally every day.

Throughout the world, women have come to rely upon a dash of ENO in the morning glass of water, to insure health and clear skin.

ENO'S "Fruit Salt" is gentle, safe, non-habit-forming. It creates an alkaline condition that keeps the stomach sweet and the intestines free of poisonous waste. And ENO is delightfully refreshing and pleasant to the taste.

Procure this time-proven remedy from your druggist. Remember, there is no substitute. Only ENO can give ENO results.

**ENO'S "FRUIT SALT"**

The words "Fruit Salt" and ENO are the registered trade marks of J. C. Eno Limited. Sales Representatives for North America: Harold F. Ritchie & Co. Ltd., 10-18 McCaul Street, Toronto.

## BRITAIN PLANS CONFERENCE ON DISARMAMENT

Geneva, Sept. 10.—The British Government is planning to inaugurate a further disarmament move.

Mr. Hon. Arthur Henderson, British Secretary for Foreign Affairs, announced yesterday evening that it was hoped to summon a general disarmament conference some time next year.

Spence's arrival in Geneva Mr. Henderson has made contacts with the French and Italian representatives and offered them any assistance possible to enable them to reach an accord, France and Italy having failed to reconcile their demands at the London conference which resulted in a tri-partite agreement between the United States and Japan.

It is understood French-Italian conversations will be resumed during the present sessions of the Assembly of the League of Nations.

Mr. Henderson also intimated yesterday evening that the general arbitration pact, placed before the powers, will be submitted to the Imperial Conference next month for discussion with a view to securing common British Empire action. It is the optional clause which appears to be the main stumbling block, and it would provide compulsory arbitration of disputes.

## CHURCH BUILT AT CHURCHILL

Montreal, Sept. 10.—A church stands waiting at Churchill, Hudson Bay, for the passengers from the first regular C.N.R. train. Guy Tombs, chairman of the committee of the Montreal presbytery of the United Church of Canada, stated yesterday in his report to a presbytery meeting here.

Mr. Tombs gave a survey of the home mission field. In its effort to promote the unity of Canada, the church now occupied 123 home mission fields.

The budget for this work was being reduced. Mr. Tombs reported, in view of current world depression. A sum of \$1,140,000 was being asked this year compared with \$1,380,000 last year. He believed it was possible too much money was being spent in the older sections of the country and that attention might advantageously be turned toward the far north, where opportunities were great, meanwhile "keeping the city alive."

The budget for foreign missions was also being reduced, from \$1,005,000 to \$890,000.

### PROFESSOR DIES

Halifax, N.S., Sept. 10.—Dr. T. Murray, seventy-one, professor of classics at Dalhousie University and chairman of the advisory board of education for Nova Scotia, died yesterday.

## VERNON CHOSEN FOR CONVENTION

Hamilton, Ont., Sept. 10.—Prompt action taken by Vernon, B.C., in broad-casting a denial that Ogopogo had met a violent death brought reward yesterday when the Union of Canadian

Municipalities voted to meet next year at the sea serpent city.

Vernon delegates promised a sight of Ogopogo and the vote was unanimous. Denying the mysterious denizen of Okanagan Lake had died in a violent frenzy witnessed by an aged Indian, the Vernon Chamber of Commerce claimed the report was a malicious libel intended to ruin the tourist trade of the apple valley town.

A Complete Success

"There's a wonderful echo around here," said the guide, "but you have to shout very loud. Now you just yell 'Two pints of beer!'"

The man shouted and then listened. "I hear no echo," said he.

"Oh well," said the guide, "here comes the innkeeper with our beer, anyway."

## These Strange Guns of Peace

explode wheat and rice

Giving Puffed Wheat and Puffed Rice the rich nourishment of hot cooked cereals

FLAVOR! Crunchy! Meltingly good to eat. That's Puffed Wheat and Puffed Rice Grains... "grains shot from guns!"

Choice, plump grains of wheat and rice are actually sealed in shining bronze guns. Then the guns are revolved in fiery ovens to develop all the natural rich grain flavor. When the guns are fired, 125 million explosions occur in every grain. This breaks open every one of the millions of tiny food cells. The grains become as completely digestible as though they had been cooked for hours. That's why Puffed Wheat and Puffed Rice are rated "virtually as nourishing as hot cooked cereals."

And these dainty nuggets of nourishment have all the rich flavor of new nut-meats. All the buttery crispness of fresh toast. You never tasted grain foods in a more enticing form. Serve with fruit and cream for breakfast. As an easily digestible luncheon dish for children. Crisp in butter to make a delicious new kind of popcorn. Order Puffed Wheat and Puffed Rice from your grocer today. The Quaker Oats Company.

**Introducing the Fashion Themes of Autumn****Fall Hats Set a New Mark in Chic Styles****With Regard to SHAPE**

The new crowns are shallow, tight fitting, and worn back from the forehead. Cap shapes are good and turbans important. Beret types are numerous. Brimmed Hats are short in front, wide at the sides and often have the fitted forehead bandeau.

**With Regard to MATERIALS**

Velvet is much used. Chiffon—transparent and Lyons—is favored. Felts are attaining newer and ever new variations. Chenille is modish too, in plain, tweed and Roman stripe effects.

**With Regard to COLOR**

To see the new tones is to approve them. There are new shades in Browns. There are Huntsman's and Cricket Greens and Guardsman and navy Blue. Black is outstanding and very effectively employed. Ruby-tone finds immediate favor.

**Coming to the MODEL HATS Individually**

They cannot be described here, of course—for there is just one of each design. You will find many perfect reproductions (by the most exclusive modistes) of original French models. Priced at \$12.50, \$15.00 and ..... \$17.50

**Special for OUR OPENING**

We are offering hundreds of the very smartest Hats—all the new ideas included and of every type of material—at ..... \$7.50 —Second Floor, HBC

ADVERTISE IN THE TIMES

## NEWS IN BRIEF

The president and vice-president of the Chamber of Commerce, P. B. Fowler and R. W. Mayhew, will represent that organization in receiving Premier M. Forbes of New Zealand and party when they arrive here on the Aorangi tomorrow.

Dr. A. F. Barton will speak in the Progressive Thought Temple, 935 Pandora Avenue, this evening, at 8 o'clock on "Facts About Your Food." The lecture will be followed by demonstrations of the diagnosis of bodily ailments from observations of the eyes.

Six bids for construction of a new lock-up at Ashcroft, B.C., were opened yesterday by officials of the Public Works Department. There were also six bids for repairing of the existing structure and one combined bid for the two jobs. The contract will be awarded shortly.

In preparation for the winter the Department of Public Works has started improvement work on the Island Highway. It was announced by the department yesterday. Considerable work is being done at Stewart's Hill, south of Ladysmith, where steam shovels and road gangs are being kept busy.

A committee of the Chamber of Commerce, to arrange for the programme to be followed on placing the ferry, Cy Peck, to connect Salt Spring Island into commission, has been appointed. The members of the committee are: W. Straits (chairman), J. R. Angus, J. H. Beatty, M.P.P., Ernest E. Eye and H. R. Savage. Some members of the junior chamber will also be named.

With a party of six from Juneau, Alaska, the Alaska-Washington Airways plane Skagway, with Pilot R. E. Ellis at the controls, landed shortly before 8 o'clock last night in the Inner Harbor. A non-stop flight from Juneau was made. The passengers were: John E. Winn, Mr. and Mrs. C. H. Davis, Chandler Hicks, George Franklin and Mrs. E. A. Hayland.

The Victoria Male Chorus held its first practice night of the season on Monday, in its new quarters at the New Thought Hall on Port Street. A large attendance was present, with Frank Tugman conducting. The executive committee held a meeting previous to the practice, at which it was decided to hold the first concert on November 28. The chorus has been able to secure Miss Verna Scodoloff, the soloist for that occasion. This artist sings over KOMO, and created a favorable impression in her last engagement with the chorus. She is gifted with a beautiful soprano voice, which she uses very effectively.

## OBITUARY

The funeral of Benjamin Jacklin, who passed away on Sunday at his home in Esquimalt, took place yesterday afternoon at 2 o'clock from the Sands Funeral Chapel. Relatives and a large gathering of friends were in attendance and many beautiful flowers covered the casket. Rev. F. C. Chapman officiated and the hymns sung were "Abide With Me" and "Peace, Perfect Peace." The pallbearers were: R. Owens, A. Macaulay, J. Scarie, W. Thorne Sr., C. H. Wilson and W. McFarlen. The remains were laid at rest in the Royal Oak Burial Park.

There passed away this morning at the family residence, 456 Walton Street, John Paisley, aged fifty-three years. Born in Homewood, Manitoba, he had been a resident of this city for eight years. He is survived by his widow at home and three daughters. The funeral will take place on Friday morning at 11 o'clock from the Sands Funeral Chapel. Rev. C. T. Scott will officiate, and the remains will be laid to rest in the Royal Oak Burial Park.

The funeral of Gail Windsor, who passed away in the city last Wednesday, will take place tomorrow afternoon at 3:30 o'clock from the Sands Funeral Chapel. The remains will be laid to rest in Ross Bay Cemetery.

The death occurred this morning of Margaret Smith McLeod, wife of Malcolm Gordon McLeod, of Happy Valley, aged forty-three years. She was born in Nova Scotia and is survived by her husband and four young daughters; five sisters, the Misses Mary, Anna and Bella Smith, of Nova Scotia and Mrs. Demeane and Miss Catherine Smith, of Victoria, and three brothers, Angus Smith, of Nova Scotia, Murdo, of Revelstoke, and Anderson Smith, of Nanaimo. The remains are reposing at the B.C. Funeral Chapel and funeral services will be held from the residence on Friday afternoon at 2 o'clock, with interment in Colwood cemetery.

The death occurred in England last Thursday of Mrs. Rudkin, wife of Arthur J. Rudkin, of "Warley," Quamichan Lake, according to word received from their eldest daughter, Miss Kathleen Rudkin, of London. The late Mrs. Rudkin was the youngest daughter of William Whitlaw, late manager of Cox & Co., the army agents and bankers. She leaves, besides her husband here, four daughters: Miss K. Rudkin, London; Mrs. Helby Wilkinson, Brentwood, Essex, of the Midway Mission to the Jews; Mrs. R. Bateman, Los Angeles; and Mrs. P. Burrows, Victoria, and grandchildren, and one sister at Haslemere, Surrey.

## SEIZURE CASE IN ADMIRALTY COURT ENDS

### Mr. Justice Martin Reserves Decision on Forfeiture of Alaska Trawlers

Hearing of the international marine case resulting from the seizure by the Canadian fishery patrol cruiser Rivida of four Alaska trawlers in Canadian waters off Queen Charlotte Islands last June, came to an end before Mr. Justice Martin in the Admiralty Court this afternoon. The end came after the case had run a week and a half, and after His Lordship, in an effort to close it up, sat from 10 o'clock this morning right through the luncheon hour.

Mr. Justice Martin, as the lawyers concluded their arguments before him, announced that he would reserve his judgment on the case.

### ONE LONG STORM

William Savage, counsel for the fishermen-owners of the seized trawlers, argued that the good intentions of the fishermen were shown by the fact that they had no intention of using the boats for anything but fishing from Alaska ports and this indicated they had no plan to abuse Canadian hospitality. He argued that it was one continuous storm of three days before and after the boats were seized and that therefore the seeking of shelter on the terms of necessity was not a violation of the provisions of the Customs Act.

J. W. deB. Farris, K.C., in charge of the case for the Canadian government, in his closing argument quoted authorities on the definition of "necessity" in the case of boats seeking shelter within the three-mile limit. He argued that such necessity must be on urgent distress, and conditions must be such as to cause apprehension or carry the boats in by violence of stress of weather.

On the doctrine of hospitality, Mr. Farris argued that it could not be interpreted, as the defence sought, to place foreign boats on a par as regards fishing in waters contiguous to Canadian waters, by allowing them to slip into Canadian waters for shelter, and then be near the fishing grounds when conditions favored fishing again.

"All the doctrine means is that if we are humanitarian and that, if life or property are at stake, we will give them hospitality," Mr. Farris went on. "It may be that these fishermen, who in themselves are hard working men, may have to suffer through the confiscation of their ships, so that the general principles in international law may be established."

Mr. Farris added, however, that if the decision of the court were that the Alaska boats should be confiscated, the Dominion government having got the decision of the court on principle, may review the case and give consideration of the fishermen in their forfeiture.

### IRA DILWORTH VISITS SEATTLE

#### Victoria Man Addressed the League of Western Writers Yesterday

Seattle, Sept. 10.—A prominent visitor in town, Ira Dilworth, an author of literary works, was honor guest at the regular meeting of the Seattle Chapter of the League of Western Writers last evening in the Chamber of Commerce Building. Mr. Dilworth, a member of the Victoria chapter, represented his organization at the meeting, and gave a short talk on "The Objective in Western Literature."

Mr. Dilworth who is a graduate of McGill University and of Harvard University, is soon to have his book "The Poetry of the Nineteenth Century" released by his publishers. He is the principal of the Victoria High School.

Another interesting contribution from Victoria was the report given by Mrs. Marian Isabel Angus on the recent convention of the Canadian Authors' Association held in Montreal. Among the prominent speakers at the convention Mrs. Angus mentioned Dr. Charles G. D. Roberts, the honorary president of the league, who is well known in British literary circles. Mrs. Angus recently entertained the writers of Victoria and all visiting authors at a reception at her home in Victoria. The reception honored Lady Williston, a former writer at this city.

Winifred Carnegie Pryor, a new member of Seattle's musical and literary colony who has translated the folk songs and legends of Roumania's poet Queen, Carmen Sylva, and is an accomplished violinist, was featured on the programme.

## Flew From Alaska Here and Believed it Was Vancouver

### Passengers From Juneau by Seaplane Wrangell Got Surprise When Pilot Clark Wing Altered Course Above Fog; General R. E. Wood of Chicago Here; G. Franklin Comes Out of Alaska for First Time in Twenty-three Years.

"Where's the Vancouver Hotel?" "Where's the Vancouver Hotel?" "What, this isn't Vancouver?" "Victoria, did you say?" "Well, fellows, what do you know about that?"

The joke was on General Robert E. Wood of Chicago, and his fellow-passengers aboard the Alaska-Washington Airways seaplane Wrangell, as Pilot Clark Wing shut off the engine alongside the Inner Harbor landing stage at 8:30 o'clock this morning.

The aircraft was in from Juneau, Alaska. Pilot Wing heaved on the mooring cable as he explained to his passengers that thick fog off Texada Island had caused him to alter his course, originally set for Vancouver, to Victoria.

The ship had hardly tasted to the Erie Street float before General Wood, who is president of the great merchandising firm of Sears, Roebuck & Company, clambered out of the cabin to stretch his legs.

### MADE ALASKA LOOP

Having just completed a flying fishing expedition to Alaska, he was tanned by the noonday sun.

"I made the loop" to Fairbanks and caught some fine trout in the Russian River," he said.

"Alaska is going to be a wonderful country, just as it is a population." "The development of the north will be largely governed by the development of air services."

"In my business I do a great deal of flying to keep in touch with things. I think it's the only way for a busy business man to travel."

General Wood went north a month ago with a hunting party, including Colonel Reed of New York, but owing to the call of business was unable to accompany the party to the Yukon.

He was bound south by the steamer Aleutian and transferred to the seaplane Wrangell in icy Strait. Pilot Wing decided to remain at Alert Bay overnight because of the fog and left there at 6:30 o'clock this morning.

### PLANE SKAGWAY HERE

Carrying full load of passengers, the seaplane Skagway, with Pilot Bob Ellis at the controls, cleared from Juneau at 10:30 o'clock this morning, and arrived here at 7:15 o'clock yesterday evening after seven and one-half hours actual flying time, stops being made at Ketchikan and Alert Bay.

"We flew above the fog practically all the way south from Campbell River," said Pilot Ellis.

The Skagway party, which stayed at the Empress overnight, included G. Franklin, a prospector who came out from Juneau for the first time in twenty-three years.

"It took Bob to bring me out and I guess he will have to take me back," said Franklin.

### Other People's Views

Letters addressed to the editor and in reply to the editor, and in the latter case, the shorter the chance of insertion. No responsibility is assumed for the return of letters or for the return of the writer's communications submitted to the editor.

### MOUNT DOUGLAS PARK

To the Editor:—In the last few days I have seen many references in the daily papers to Mount Douglas Park—gravel, firewood, depreciation, etc., etc. All of these articles have been written in a somewhat veiled manner, and all containing insinuations of "dark dealings."

I have been chairman of the Victoria-Sanich Parks Committee for the last four years and little has been done in Mount Douglas Park which was not authorized by the Victoria-Sanich Parks Committee. It is true Sanich Municipality has taken gravel from Mount Douglas Park with the consent of the City of Victoria. Some two years ago a wooden bridge in the park, which was dangerous to traffic, was removed by us and we built a concrete culvert at a cost of \$2,000, and also paid a Victoria firm some \$1,500 extra to fill in with gravel taken from the pit; this at no cost to the City of Victoria.

We have also had considerable unauthorized work done, the taking of gravel. We even went so far as to place a man on watch all night for a considerable time in an endeavor to check the unauthorized removal of gravel.

## Fletcher's . . . Victoria's Complete Music Store

Fletcher Bros. is more than a piano store, more than a radio store . . . it is a place where you can buy anything and everything musical.

One of our windows to-day makes an interesting presentation of the scope of this music business—handsome new style Banjos and Mandolins by Gibson, the world-famous Both Violins, Conn and Beuscher Saxophones, Heintzman Pianos . . . an instrument for everyone, and a price to suit every purse.

Stop a few minutes and see this window display.

## GYM SEASON AT "Y" WILL OPEN MONDAY

### Indoor Track and Field Coaching New Feature of Winter Programme

### Big Year Is Expected by Physical Director Archie McKinnon

Plans for an indoor track and field season to be run in conjunction with the general gymnasium work were announced this morning by Archie McKinnon, physical director at the Y.M.C.A. Mr. McKinnon also announced that the gymnasium would open for the winter on Monday.

The track and field event should add greatly to the attractiveness of the indoor programme, and should draw many runners and jumpers to the ranks of the association. During the cold weather it is Mr. McKinnon's intention to specialize on running and jumping technique. He will make a determined effort to develop the stride of any promising track man, and devote considerable time to the teaching of the eastern and western rolls in jumping.

While the Y.M.C.A. track team had, on the whole, a successful season this summer, Mr. McKinnon would like to see his boys pay more attention to the scientific side of their respective sports, and hopes to be able to give them assistance and encouragement in the gymnasium.

### SPECIAL PERIODS

For this purpose he is planning two periods a week on Tuesday and Friday afternoons, and expects to have some good youngsters working under him during the winter.

In the other departments, the regular activities will be taken up where they were dropped last year. Apparatus work, basketball, volleyball, calisthenics, tumbling and squad drills will be carried out by Mr. McKinnon with the assistance of Vivian Shoemaker, Harry Robson and W. S. Maguire.

The first class to take the floor will be the junior school group, at 4 o'clock in the afternoon. At 7:30 o'clock that evening the junior and intermediate employed classes will start, with the senior division swinging into action the following week.

### GYM LEADERS TO HELP

In addition to the regular staff members, the gym leaders corps will assist in the instruction of the different members of the classes, and will supervise the basketball, volleyball, swimming, diving, boxing, wrestling, road racing, tumbling, soccer and rugby divisions.

A fine comprehensive programme has been outlined for the season, and time tables have been drawn up to give all sections of the association the best of the winter.

The addition of rugby to the Y.M.C.A.'s programme last year was received with considerable enthusiasm by a large part of the membership, and its continuation this year, under Harry Robson, is assured.

## LEO DIEGEL IS DEFEATED

Flushing, N.Y., Sept. 10.—Harold Eason, Burlingame, Cal., eliminated Geo Diegel, defending champion in the second round of the P.R.A. championship, 1 up, thirty-eight holes.

Johnny Farrell won from Denny Shute, Columbus, 1 up, when the thirty-sixth hole was played. Farrell had won the thirty-fifth with a birdie. Shute just missed a nine-foot putt for a win at the home hole.

Tommy Armour, Detroit, defeated Bob Shave, Cleveland, 7 up and five to play.

Charles Lacey, Philadelphia, won from Al Watrous, Detroit, 5 and 4.

## Wilby Charges Before Board This Evening

Discussion of charges brought recently by Mayor W. J. Wilby in connection with the public school cadet system in Victoria will probably form the main theme at this evening's meeting of the City Council Board, starting at 8 o'clock.

Since the last meeting of the board interest in the Wilby charges has grown steadily and it is understood, some members are considering an immediate investigation. No specific action was taken by the board when the charges were first made, but it is expected disposition of the case will be decided this evening.

has been done in Mount Douglas Park, to the best of my knowledge, that was not authorized by the Parks Committee, which consists of three city aldermen and the mayor; three Sanich councillors and the reeve.

WM. CROUCH  
Chairman, Victoria-Sanich Beaches and Parks Committee  
Royal Oak, B.C., Sept. 9, 1930

### PARTY GIVEN FOR DOG AT JORDAN RIVER

A novel event took place at Jordan River on Saturday in the form of a children's party in honor of "Bonnie," Mrs. A. Kirby's talented doggie, it being her first birthday.

Pretty decorated tables occupied a spacious veranda. Placed apart from the tables on a pedestal was an enormous birthday cake, surrounded by one of the most interesting souveniers for each little guest.

Seventeen children were invited, including Marguerite and Sonny Boy Campbell, Phyllis Cox, Lois and Beryl Johnston, Clara Kingery, Mary Ledingham, Irene and Margaret McLean, Violet Merryfield, Beverly and Peter Rough, Mary and Margy Sager, Georgina and Lorraine Tourne and Adelaide Walker.

"Bonnie" was the recipient of various gifts, including sweets and neck pieces; but perhaps the most acceptable was a meaty bone, the gift of Beverly and Peter Rough.

While the children were enjoying a treasure hunt, Mrs. Vogel assisted Mrs. Kirby in serving tea to the grown ups who accompanied the smaller children.

## ISLAND RAILWAYS COULD STABILIZE THE COAL INDUSTRY

Special to The Times  
Nanaimo, Sept. 10.—Reporting on the coal commission before the Board of Trade here yesterday evening, W. W. Mitchell was very critical of the antagonistic attitude of the Forestry Department towards coal. He stated that results from the proposed spars re-ster on E. and N. engines would be successful.

Mr. Cotterell of the C.P.R., Vancouver, he said, would put switch engines in Vancouver on coal. He stated there was general ignorance in connection with iron firemen and pulverized coal. There was a necessity for advertising Vancouver Island domestic coal and the taxation of fuel oil.

George Pearson stated that the railways on the island were able to stabilize the coal industry on the island. W. W. Mitchell took exception to an editorial which appeared in Sunday's Colonist. He objected to Victoria interfering in any projected transportation scheme linking up Vancouver and Nanaimo, since the development of upper Vancouver Island can be and is essentially a transportation problem.

## BORDEN WILL ADDRESS LEAGUE ON UNION PLAN

Canadian Delegate to Speak at Geneva on European Federation

By George Hambleton, Canadian Press Staff Correspondent

Geneva, Sept. 10.—Sir Robert Borden, former Prime Minister of Canada and now the Dominion's delegate to the League of Nations, expects to make his first speech before the Assembly to-morrow when Mr. Aristide Briand, French Foreign Minister, plans to outline his scheme for European federation of states.

Mr. Borden's speech will be one of the most important in the history of the League.

Mr. Borden's speech will be one of the most important in the history of the League.

Mr. B

If You  
Could Live  
Your Life  
Over Again

## Dorothy Dix

Ask  
Would  
You Do  
Differently?

## Would We Really Do Differently if We Had Our Lives to Live Over Again?—Wouldn't We Make Just the Same Blanders and Choose the Same Life Partners That Make Us Miserable Now?

THERE is nothing that we say oftener than that if we had our lives to live over again, how differently we would do it. We are very certain that if we were given another chance we would avoid the mistakes that we have made. We would not stumble into the pits again into which we have fallen. We would be guided by reason instead of impulse. We would always walk the straight and narrow road instead of side-stepping off into flowery by-paths.

Oh, we would all be models of wisdom and discretion and go-getters and marvelous successes if we could live our lives over again. But would we? If we came into the world a second time as temperamental as we were the first, would we not be just what our temperaments and environment have made us, even as we are? and would we not react to every situation just as we do?

And even if some kindly fate permitted us to start out on the second incarnation with all the dearly bought knowledge that we had gained in our first, would it materially change our destinies? Would we make better jobs of our lives than we are making? Would we be happier and more successful men and women? Would we save ourselves from the blunders we make?

I think not, for nothing is more obvious than that most of us learn nothing from experience. All of us know, for instance, that health is our most precious asset and that without it everything else in the world is just cinders, ashes and dust, and yet every day we eat food that has disagreed with us a hundred times and that we know beforehand will give us indigestion. We have had nervous breakdowns, but we still go on overworking and overplaying and burning the candle at both ends, until it is snuffed out in a sanatorium or the grave.

Every drunkard knows the depths into which he descends and that he is wrecking his own life and the lives of his family, but that seldom makes him let liquor alone. It is a common thing for people who inherit fortunes to throw them away in senseless extravagance and bring themselves down to dire poverty. You would think that if they ever got hold of any money again they would clutch every dollar with the fist of the miser, but they don't. Their experience teaches them nothing, and if by a fluke of luck they come into money again they waste it as they did the first.

Perhaps the two things that we are surest that we would do differently if we had our lives to live over again are the choice of our life work and of our life partner. Probably nine business men out of ten think they would have been great surgeons, or writers or lawyers or moving-picture actors, and an equal proportion of professional men are certain that they would have been millionaire merchants or manufacturers if only they had gone into business.

"If I had my life to live over again I would be an artist," says the dreamy, bored, inefficient owner of a messy little grocery store. "If I had my life to live over I would go in for something practical that people will buy instead of painting pictures that nobody wants," says the half-starved artist, for each imagines that the other has an easy road to fame and fortune.

Undoubtedly there are occasional round pegs in square holes, but for the most part the qualities that lead to success in one line lead to success in all, and the man who lacks the intelligence, the initiative, the industry and the stick-at-it-iveness to make a go of whatever he attempts would fail equally in anything else.

But it is about marriage that we are most emphatic in saying that if we had our lives to live over again we would do differently. Probably there is not a single husband or wife in the world who, if they told the truth, hasn't had moments when he or she thought that if he or she was single wild horses couldn't drag him or her to the altar. And probably there are not many old bachelors or old maids sitting alone in their rooms, with nobody to listen to their symptoms, or rub their rheumatism, and with no love or tenderness to solace them, who haven't thought that if they had their lives to live over again they would marry when they were young, and have about them a wife's or husband's companionship, and sons and daughters to fill their lives with fresh interests.

And assuredly there are not many husbands and wives who do not have their times and seasons in which they think that if they had it to do over again, they wouldn't choose the ones they did for life partners.

John looks at Mary and sees her grown middle-aged and stout and nothing to write out a song about, as to looks and mentality. He listens to her twaddle about the house and the children and the neighbors and reflects that she hasn't had a new idea in twenty years and he thinks that if he had his life to live over again he would pick out a woman who had more pep to her and who read and kept up with things and who would make a more entertaining companion.

And Mary looks at John and sees him bay-windowed and bald and shabby and glum, and she thinks that if she could live her life over again she would pick out a man who was more of a sheik, and more of a money-maker and had a keener line of conversation.

But they wouldn't. They would marry just the same kind of people. Every woman will tell you that when a widower proposes he always begins by telling her he is asking her to marry him because she reminds him so much of his first wife. And statistics show that even divorced people marry in their type. And that a woman who is parted from one husband because he was unfaithful to her will marry another philanderer, and that a man who is paying alimony to one naggar can't be happy until he gets another.

so perhaps it is just as well that we only have one chance at life.

## DAILY HEALTH SERVICE

## Thorough Physical Examination Is Advisable Before Child Begins New School Year

By DR. MORRIS FISHBEN

September is school time. All over this land of general education children will begin their perhaps unwilling progress toward the school houses.

The investigations made during the past few years have revealed the fact that about three per cent of the children will not hear sufficiently well to take advantage of the teaching and a considerable number will not be able to see the figures that the teacher puts on the blackboard. Many of the children will be little inclined to education because their nutrition is bad. Some of the children will be infested with intestinal worms that sap their energy.

## TONSILS OFTEN INFECTED

Bad teeth and tonsils will in many cases be responsible for chronic infections that keep the constitution subnormal and which therefore interfere with attention, interest and ambition.

Indeed, by all the rules of experience, many of the children who are put into the schools for the usual teaching will be so subnormal mentally that they cannot possibly keep up with the average of the class. As a result of their difficulties they will develop mental attitudes leading toward degeneracy and antisocial conduct.

Such considerations as have been presented here, more than any other consideration, prompted hygienists and educators to urge that every child have a physical examination in order

to secure a health rating and to be made as physically fit as possible before school begins. In many school districts throughout the country organized plans provided for regular inspections of all children in school and for attending to the correction of physical deficiencies thereafter.

**CONSULT YOUR FAMILY DOCTOR**  
In the vast majority of instances, however, such organized effort is not put forth. Perhaps it is far better that parents take the initiative and take the child to the family physician before the beginning of school for a physical examination and for the correction of such defects as may be determined.

Experience has shown that the chief defects usually found concern the sight, the hearing, the tonsils and adenoids, the teeth, flat feet, bad posture, and nutrition.

The defects are practically all correctable. When they are corrected the child has a better chance to succeed in its school work, and certainly more opportunity for a happier existence.

## EIGHT-HOUR DAY

Sydney, N.S., Sept. 10.—Legislation regarding an eight-hour day for labor in Nova Scotia will be introduced at the next session of the Provincial Legislature, Premier G. S. Harrington announced at the conference on unemployment opened here yesterday.

## Where To Go To-night

As advertised

ON THE SCREEN

Capitol—"Man Trouble" with Dorothy Mackall and Milton Sills. Coliseum—"The Vagabond King," starring Dennis King and Jeanette MacDonald. Columbia—Reginald Denny in "What a Man." Dominion—"Wild Company," featuring H. B. Warner. Playhouse—"Vengeance," starring Jack Holt. Crystal Garden—Swimming and Dancing.

ROMANTIC DRAMA  
STARRING WARNER  
AT THE DOMINION

"Wild Company," a Fox movie, all-talking, emotional and romantic drama, opened its long-awaited engagement at the Dominion Theatre Monday with H. B. Warner and Frank Albertson in the leading roles and Sharon Lynn playing the feminine lead.

The picture was directed by Leo McCarey, a master of dramatic situations and wild comedy scenes.

"Wild Company" is a picture that neither young nor old should miss. It is outstanding as a dramatic offering.

## SCREEN NOTABLES

AT THE CAPITOL

IN "MAN TROUBLE"

Dorothy Mackall, Milton Sills, Kenneth McKenna and Sharon Lynn appear to advantage in the leading roles of "Man Trouble," Fox movie, all-talking drama, showing for the last time to-day at the Capitol Theatre.

They are ably supported by a cast of screen notables that includes Roscoe Karns, Oscar Apfel, James Bradbury Jr., Harvey Clark, Edythe Chapman and Lew Harvey.

The story, sustained in its intense situations, deals with the struggles of a young man and a beautiful girl, who, after they have fallen in love, discover themselves menaced by a night club owner who has a claim upon the girl.

## REGINALD DENNY

COLUMBIA STAR

WAS ONCE BOXER

Reginald Denny, who is starring in "What a Man" at the Columbia Theatre, has been a professional boxer, early in his career, theatrical engagements were scarce and funds were low. Denny turned his fist to profit. During the war he served with the Royal Flying Corps, and won the brigade boxing championship at Hastings, in 1918.

## EXECUTION REPORTS DENIED

Buenos Aires, Sept. 10.—Gen. Justo, newly-appointed commander of the national military forces, late yesterday evening denied rumors current earlier in the day that two alleged leaders of Monday evening's disturbances had been publicly executed in the Plaza de Mayo.

MANY MATTERS  
BEFORE JUNIOR  
CHAMBER BOARD

To Hold Good-will Tour to  
Salt Spring on New Ferry;  
Unemployment Discussed

Fire Prevention Contest  
Mooted; Dismiss Award of  
Mail Contracts to Boats

With Clarence Gannon in the chair, the first meeting of the directors of the Junior Chamber of Commerce was held late yesterday afternoon in the lounge room of the chamber. It was decided to hold the first general meeting of the Junior Chamber on October 3.

A letter of acknowledgement from the mayor thanking the Junior Chamber for flowers sent to Mrs. Anson during her recent illness, was read.

Discussion took place on fire prevention, unemployment and the Salt Spring Ferry. With regard to fire prevention a letter was read by Secretary Harold Palmer regarding a contest supported by most of the important fire underwriters' organizations of Canada. This contest will take the form of an examination of each separate city. The city with the highest percentage of marks will gain possession of a silver shield, suitably engraved. Forty per cent of the marks will be given for amount of fire loss reduction; thirty per cent for education along preventative lines, thirty per cent for adequacy of fire equipment.

It was pointed out that there is already a fire prevention week occurring usually during the second week in October, and that attention should be given to this campaign rather than to the new contest idea. Finally, a committee of one was appointed to interview F. F. Patt, secretary of the Victoria District Fire Insurance Agents' Association, with regard to the proposed competition and to report back to the directors.

With regard to unemployment, the directors were of the opinion that, since the Junior Chamber had taken the matter up, the Junior Chamber should be content to be represented on the Senior Chamber's unemployment committee. E. J. Browning was appointed to assist Walter Miles as junior representative on this committee. Mr. Browning cited opportunities to employ four or five hundred men for a month or two. He asserted the need for much road, sidewalk and boulevard improvement.

The Salt Spring Ferry discussion took up most of the time of the directors. It was the belief of the meeting that the Junior Chamber, which had initiated the movement to secure the service, should be the body to give it a good send-off. Because of this, it was decided to hold a good-will tour to Salt Spring Island in the near future. Members of the Junior Chamber, their families, friends and others interested will be asked to participate in this. The ferry is expected to get under way toward the close of next week. Twenty-five cars can be carried.

The advantages to Victoria and Salt Spring Island trade through the operation of the ferry were pointed up at the meeting, but various resolutions regarding such business remain very much in the indefinite stage.

## MAIL CONTRACTS

An interesting resolution drawn up yesterday was that which will be submitted to the Senior Chamber regarding the award of mail contracts to a new C.N.R. boat. At present, a letter posted here in the afternoon reaches Seattle somewhat tardily. If mail could be sent over on the C.N.R. 7 o'clock boat to the Sound City, it would reach its destination in Seattle homes and offices the next morning.

A letter to F. B. Fowler from the Boy Scouts' Association asking for representatives of the Chamber of Commerce at this month's meeting was read. The directors considered it a moral support that the very worthy scout cause required, and F. F. Pease and E. J. Browning were appointed as representatives.

## GLAMOROUS FILM

OF REVOLUTION AT

COLISEUM THEATRE

One of the most glamorous figures in literary history will be seen and heard at the Coliseum Theatre to-day when "The Vagabond King" shows at the Coliseum with Dennis King in the title role.

The character is none other than the romantic, poetic, rowdy, Francois Villon—the vagabond who consorted with the thieves and ruffians of his beloved Paris in the fifteenth century and who wrote, between crimes, some of the most beautiful poetry of all time.

That every accomplishment an actor has is likely to prove useful, was illustrated during the making of "Vengeance," the Columbia all-talking drama of life in West Africa, showing at the Playhouse Theatre to-day. In one sequence of this film, George Pearce, who plays a featured role, called upon to sing "Auld Lang Syne." Pearce sang the ballad and revealed a voice of unusual beauty. Upon inquiry, he revealed the fact that he had been a member of famous choir.

## CHOIR SINGER HAS

LEADING ROLE IN

PLAYHOUSE FEATURE

That every accomplishment an actor has is likely to prove useful, was illustrated during the making of "Vengeance," the Columbia all-talking drama of life in West Africa, showing at the Playhouse Theatre to-day. In one sequence of this film, George Pearce, who plays a featured role, called upon to sing "Auld Lang Syne." Pearce sang the ballad and revealed a voice of unusual beauty. Upon inquiry, he revealed the fact that he had been a member of famous choir.

## GRAF ZEPPELIN

VISITS MOSCOW

Moscow, Sept. 10.—The German dirigible Graf Zeppelin landed here at noon to-day (2 a.m. Victoria time) after a twenty-seven-hour flight from Friedrichshafen.

## SANTO DOMINGO RELIEF

New York, Sept. 10.—The Board of Christian Work in Santo Domingo yesterday announced it had voted to cable \$10,000 for relief work in the hurricane-stricken island. A fund of \$200,000 would also be sought in the nation's churches, it was said.

SHE'S WOMAN  
"ENOCH ARDEN"

Believed to have been a suicide,  
the "Enoch Arden" wife of George  
J. Packard of St. Albans, who re-  
appeared alive recently to find her  
husband married again, is picture  
above after her arrest at Spring-  
field. She was held as a material  
witness in the strange tale, in-  
volving the burial of another  
woman identified herself a  
year ago.

TRAVELERS HELD  
INTERNATIONAL  
GATHERING HERE

Welcomed by Mayor Herbert An-  
son, the Bellingham Council No. 305  
Order of United Commercial Travelers  
held a meeting here Saturday evening, when its members  
arrived for an international ses-  
sion with the Victoria group in the  
Empress Hotel.

Following the warm welcome ex-  
tended by the Mayor, Supreme Sentinel  
Ed McEasters, responded on behalf  
of the visitors.

The actual business session was held  
after dinner, while the Bellingham  
delegates' wives were entertained at a  
bridge party.

In the council chamber a ceremony  
was held that has never before taken  
place in the history of the order. Past  
Grand Counsellor Ed. Malone presented  
the Stars and Stripes to Senior Coun-  
sellor Len Woodhouse of Victoria coun-  
cil, and received from the hands of  
Grand Counsellor Matt. Hunter the  
Union Jack to be displayed at each  
meeting of the Bellingham council.

The ceremony was attended with all  
the dignity due a ceremony of this  
kind and was very fitting, since in the  
entire supreme jurisdiction this is the  
only international grand council, op-  
erating in Oregon, Washington and  
British Columbia.

The order has been making very  
rapid strides of late years and prac-  
tically every grip man in the province  
is a member.

The next grand council session will  
take place in Seattle.

NEWSPAPERS OF  
GREAT BRITAIN  
HEAR WARNING

London, Sept. 10.—Is the power of the  
press developing into a form of ty-  
ranny? This was among the questions  
suggested by H. A. Gwynne, editor of  
The London Morning Post, in his pre-  
sidential address at the annual con-  
ference of the Institute of Journalists  
of Great Britain at Burton. Mr.  
Gwynne said the newspaper profession  
should limit its activities to its proper  
functions of keeping watch and ward  
—of informing, advising and instruct-  
ing. To go beyond that was to invite  
disaster.

Mr. Gwynne said journalists had no  
right to intrude on private guests.  
Journalism must give prominence to  
cases, hangings and sordid crimes, but  
should not create a position whereby one  
was never compelled to do anything  
unbecomingly a gentleman.

He deplored the giving of prominence to  
cases, hangings and sordid crimes, but  
was adopted by the Institute only after  
President Gwynne had cast his vote  
in favor and broken a deadlock.

## CORONER'S JURY

COMMENDS MEN

FOR RESCUE

Vancouver, Sept. 10.—That William F.  
Carlaw, twenty-one, who was found  
dead in an automobile near the Uni-  
versity of British Columbia buildings  
Sunday morning, died from effects of  
a bullet fired by his own hand while  
of unbalanced mind, was the verdict  
of the coroner's jury, which inquired  
into the tragedy.

A rider commending the action of  
A. F. Arnold, who rescued a young  
Kitsilano girl from a motor car on  
law was driving Saturday evening, was  
added by the jury.

Carlaw was infatuated with the girl,  
according to the evidence of several  
witnesses, and his act of self-destruction  
they attributed to his rejected  
suit.

Carlaw was a native of this city and  
received his education here and in  
Chilliwack. F. G. Carlaw of Chilliwack,  
father of the boy, testified.

Carlaw said he was married in the  
United States shortly after his dis-  
charge from the army, according to  
the witness.

APPLE RATE  
FROM B.C. ON  
RAILWAYS CUT

But Transport Men Do Not  
Meet All Requests of Okan-  
agan Growers

Canadian Press

Vernon, Sept. 10.—Considered in  
the broadest sense, freight traffic of-  
fers of the railways may be considered  
as having given an affirmative reply  
on four out of five points, to have de-  
clined to give a definite answer at this time  
on two, and to have refused four of  
the applications for concessions made  
at the conference in this city this week  
between the committee representing the  
fruit and vegetable shippers and grow-  
ers and the traffic officers of the rail-  
ways. Chairman W. Sanford Evans  
tendered the thanks of the meeting  
to the railway men.

Previous to the opening of the meet-  
ing, and before the railway officials  
left their offices, J. T. Thompson, sec-  
retary to the fruit industry commis-  
sion, supplied them with a list of the  
concessions to which a fairly well  
equipped conference fully prepared.

In the afternoon, after the session had  
opened, representatives of the ship-  
pers and growers outlined the things  
which they desired to have done, and  
declared Eden Quinlan in an address  
at the Memorial Hall last night on  
"The Future of America."

While pointing out that it was  
easier to criticize the United States  
than to speak of things which had  
their appeal as national characteristics,  
Mr. Quinlan found food for serious  
thought in prospects of the country  
becoming "beautifully monotonous"  
owing to standardization. "Bigger and  
better" was the slogan heard in the  
United States, but "glorious dullness"  
was more nearly the motto, he said.

"But America is not simply a brand  
new experiment in civil life. It has  
an enormous and glorious past, just as  
we have," he continued.

With regard to United States litera-  
ture, the speaker suggested that Sin-  
clair Lewis wielded a bludgeon rather  
than a rapier in his works. In her art,  
which included literature and architec-  
ture, lay America's best prospect, he  
said.

As far as music was concerned, it  
was a fact that the products of "tin  
pan alley" ruled the world. It was sig-  
nificant that the only new art forms  
of the present generation, jazz and  
skyscrapers, had both come from Am-  
erica.

The talkies had wrecked the art of  
pantomime, the lecturer continued, con-  
juring a "terrible prospect of a world  
made hideous by talkies, radio and tel-  
evision."

The speaker was introduced by his  
father, Very Reverend Dean Quinlan.

APPLE SHIPMENTS  
In reply to the application for a  
storage in transit privilege at prairie  
points on apples on a fairly well  
equipped conference fully prepared.

On the application for a reduced  
rate on Okanagan apples for storage in  
transit at New Westminster to be for-  
warded to prairie points, the railways  
declined to consider the request. A  
hundred pounds, minimum cars 40,000  
pounds. The regular tariff is to be  
charged on apples in storage and on  
proof of reshipment reduction will  
be made.

On the application for a reduced  
rate on Okanagan apples for storage in
